

Austin Residents Protect Cars With Extreme Clean Mobile Detailing & Ceramic Coatings

January 17, 2024

January 17, 2024 -
Clean Mobile Detailing & Ceramic Coatings is offering cutting-edge ceramic coating services to help Austin, Arkansas car owners protect their vehicles. Locally based and family owned-and-operated, the company has long established itself as a leading provider of high quality, detail oriented, mobile detailing services in the region.

As Extreme Clean Mobile Detailing & Ceramic Coatings explains, ceramic coatings represent the next evolution in vehicle surface protection. They are an improvement on traditional waxes and sealants. Ceramic coatings act like liquid glass, often composed of silica, delivering unparalleled gloss and safeguarding a vehicle?s paint against scratches, UV damage, and even water. Unlike traditional waxes which require frequent reapplication, ceramic coatings create a permanent or semi-permanent bond with the vehicle's paint, ensuring long-lasting protection without the hassle of regular maintenance.

The company explains that those who choose ceramic coating for their vehicles stand to benefit from superior

protection, enhanced appearance, and reduced maintenance. Since the application of a ceramic coating creates a robust barrier on the vehicle?s paint, it can provide an additional layer of protection against scratches, chips, and other forms of damage. This durable shield helps safeguard vehicles from the elements as well as daily wear and tear.

Ceramic coatings also come with a smooth, glossy finish that enhances the overall appearance of the vehicle. The coating not only adds a clean and well-maintained look but also enhances the color and vibrancy of the vehicle's paint, making it more visually striking. The glossy finish and improved appearance will also be maintained for longer, and vehicles usually require less frequent washing and waxing to maintain their appearance. This is due to the fact that the coating repels water, dirt, and contaminants, making it easier to keep it clean. This reduction in maintenance can save time, money, and effort in the long run.

Car owners should further appreciate that investing in a ceramic coating can boost the resale value of the vehicle in question. As the paint is protected and the vehicle?s appearance is enhanced, ceramic coating helps maintain the value of the vehicle, making it more appealing to potential buyers when the time comes to sell. Anyone in Arkansas looking to install ceramic coating for their vehicles will be pleased to learn that Extreme Clean Mobile Detailing & Ceramic Coatings is a certified master installer, and the company guarantees that every vehicle they work on will receive the highest standard of care. Nick Dougherty from Extreme Clean Mobile Detailing & Ceramic Coatings comments, ?Whether you want people to take notice of your vehicle or you are looking to keep your car looking new for longer, ceramic coating is the answer. Properly applied ceramic coating can breathe new life to your vehicle and give it a wonderful look."

Extreme Clean Mobile Detailing & Ceramic Coatings is pleased to acknowledge that they enjoy a great deal of community support as a result of their work. As one recent review from Stacy M. says, ?So glad we went with Extreme Clean. Nick is top notch! Matt and Kyte did an amazing job on our Explorer. Great customer service from beginning to end. Immaculate in and out. Will definitely use it again! Thank you!?

In another review, Adam S. calls the service, ?Absolutely phenomenal! The guys were friendly, professional, and experts at their craft. My truck has never looked better. Needed a quick, thorough clean before dropping off my truck for international shipment, and these guys knocked it out of the park. Truck looks brand new, and they cleaned the engine compartment as well and took care of some corrosion on the battery terminals. Highly recommend it!?

Extreme Clean Mobile Detailing & Ceramic Coatings provides extensive detail about the range of services they provide on their website. In addition to ceramic coating, car owners may approach the company for full detailing, paint correction, mobile detailing, and more.

Nick Dougherty encourages interested parties to get in touch with him directly via email or phone for any additional information. The company can similarly be reached via their official social media channels on Facebook or Instagram.
