Promitheas Diagnostic Center Is Offering Rapid And Reliable Blood Tests In Nicosia, Cyprus

January 24, 2024

January 24, 2024 - PRESSADVANTAGE -

Promitheas Diagnostic Center in Nicosia is helping patients across Cyprus get fast and reliable results for a wide range of laboratory and imaging tests. For more information, visit <https://promitheasdiagnosticcenter.com.cy/>.

The new, state-of-the-art diagnostic center provides several high-quality health and biomedical services in a safe, comfortable, friendly, and modern environment. The center boasts a team consisting of qualified medical and paramedical staff with extensive experience in the healthcare industry who work with the latest machines and software to ensure diagnostic accuracy in every examination.

To showcase its dedication to always delivering accurate analyses, the center has earned an ISO 9001:2015 certification which guarantees that all tests are conducted under frequent and strict quality controls. Also, to ensure medical privacy, the history of the examinees is stored in a protected database that conforms to the European regulation on the protection of personal data - GDPR (General Data Protection Regulation).

"We understand just how stressful it can be to wait for the results of a laboratory test," says the

spokesperson of the Medical Lab. ?So, we have optimized our analysis process with the use of state-of-the-art diagnostic machines and operational efficiencies to ensure you get the exam results as soon as possible. We are aware that our tests hold the key to your health and well-being. Recognizing what our services mean for the residents of Nicosia, we are committed to always delivering them in the most seamless and hassle-free way to our patients.?

Some of the main tests provided by Promitheas Diagnostic Center are full hematology testing, liver and kidney function testing, cholesterol profile, uric acid, blood sugar, inflammatory markers, nutrition and immunity markers, iron levels, thyroid function, vitamin D, vitamin B12, and folic acid. Patients who need these tests do not need to book an appointment and are urged to walk in at their convenience. Promitheas is located in the center of Nicosia, on Griva Digeni Street, with plenty of parking available nearby. Results are provided within 23 to 48 hours, depending on the type of test.

Patients can either come with a Cyprus General Healthcare System (GHS) referral or take advantage of the preferential rates offered by Promitheas Diagnostic Center for the uninsured. The center accepts cash and debit or credit card payments from all banks including VISA, Mastercard, and American Express. All that patients need to bring is their ID.

The center also offers a range of laboratory medical examinations such as blood tests, immunological examinations, preoperative examinations, microbiological examinations, endocrinological examinations, general check-ups, genetic testing, COVID-19 tests (PCR & rapid test), intolerance tests, home blood collection, cancer markers, and specialized exams.

The medical lab in Nicosia has already received praise from patients it has served who thank it for its professional and cordial staff, compassionate service, and quick results. A recent review on its Google Business Profile says, ?Excellent health service delivery! Appropriately trained staff, polite, with a humane approach (especially appreciated by the stressed visitor). Many and warm thanks to all your staff!?

?Our patients are at the heart of the services we provide,? says the center?s spokesperson. ?We aim to serve everyone who walks in through our doors with consistency, ethics, and empathy. We treat each patient individually, making you feel calm and safe while we are taking the sample. This is especially appreciated by the parents of children and teenagers who are getting their blood drawn for the first time. We even come to you, at home, to collect blood if you have mobility issues or other health problems. With Promitheas Diagnostic Center, you are choosing the best medical lab in Nicosia for your diagnosis.?
