

Action Tree Care Is Offering Certified Tree Removal And Trimming Services In Daytona Beach, Florida

January 25, 2024

January 25, 2024 - PRESSADVANTAGE -

Action Tree Care, a tree care services company based in South Daytona, Florida, is offering a range of tree care, removal, and trimming services to local customers.

Led by Eli "The Tree Guy" Dixon and Amber Carson, an ISA Board Certified Master Arborist, Action Tree Care offers a comprehensive suite of tree care services and expert consultations. The company is fully licensed and insured to serve residential and commercial customers in Volusia County, Seminole County, Flagler County, Orange County, and surrounding areas in Florida. Its tree care services range from specialty tree care to proper pruning & trimming, tree removals, large hazardous removals, in-depth arborist consultations, efficient stump grinding, and responsive storm damage remediation.

The company's services begin with a complimentary, no-obligation estimate. Its expert team will assess the landscape, identify potential hazards, and provide a detailed quote for the needs of the plant life on the property. Next, a comprehensive, customized service plan is created that prioritizes the landscape's requirements, safety, and aesthetic value.

Finally, its technicians arrive on site to carry out the promised services efficiently and safely. After the work is finished, they perform a thorough site clean up leaving the property as pristine as it was before they arrived. Additionally, the company's arborists also guide customers on the steps needed to maintain the health and beauty of the landscape.

When asked about the need for regular tree trimming and removal for homeowners, Eli says, "Tree pruning and trimming helps keep your trees in top shape. Under the guidance of an expert, you can ensure that your property's trees grow and flourish in optimum health and retain their natural aesthetic appeal. Our certified arborists are well-versed in the art and science of pruning and trimming to promote healthy growth patterns while preserving the natural form and strength of your trees."

He continues, "However, if a tree has been weakened to a beyond salvageable state, Action Tree Care will help you safely remove it from your property. We follow a seamless, efficient, and environmentally conscious removal process that takes care of everything from small pesky trees to large difficult ones. We achieve this using state-of-the-art equipment and techniques that prioritize your safety and well-being."

Action Tree Care has been repeatedly recommended by Florida homeowners and businesses for delivering high-quality tree care services with professionalism and great results. The company even boasts a perfect 5.0 out of 5.0 rating on its Google Business Profile from over 200 reviews. Customers thank the company for its reasonable prices, the efficiency and meticulousness of its arborists, and the overall customer service.

A recent review says, "I had a very large water oak in my yard that was at the end of its life. I called Action Tree Care and they came out and gave me a very reasonable quote and I was scheduled the following week to have the tree and stump removed. I cannot say enough how professional this company is and how they removed the tree with actually no damage to my garden or my home as the tree was right next to my house. They cleaned my courtyard, and garden, and raked my lawn so it didn't even look like they were even there. I would highly recommend Action Tree Care."

Another customer writes, "The professionalism of the entire team is outstanding, from the initial call to sales to the crew. The respect for me, my property, and each other was beyond my expectations. The care and safety of each person that the team gave to ensure everyone was returning home at the end of the day was phenomenal. If you are looking for a tree removal service, look no further...these are the guys you want. They took the time to clean up all debris and smoothed out any disruption to the ground that the removal of the equipment caused. THANK YOU!! I have additional work that will need to be done, I will call them again."
