Prestige Kitchen and Bath has been consistently praised for keeping its promises to its customers and delivering top-notch renovations and remodels at a fraction of its competitors' prices. The company boasts an impressive overall rating of 4.5 out of 5.0 on its Google Business Profile from over forty reviews and a near-perfect rating of 4.9 out of 5.0 on its Houzz profile, again, from over forty reviews.

A recent review for a kitchen renovation says, "I explained what my budget was for kitchen cabinets and countertops. Prestige came up with a higher quality product at a better price than the big box stores that provided quotes. Everyone at Prestige was patient, professional, and thorough from the design phase through completion. Their attention to detail made me feel like a celebrity VIP! Their suggestions and guidance throughout the project were invaluable and saved me expenses that were not necessary. I have been in "high-end" homes that had kitchens that were not as impressive as what Prestige delivered. If you're looking to build, or remodel, Prestige is your answer!"

Another customer writes, "Prestige Kitchen & Bath brought my dream kitchen to life! They completed the project in record time (less than 4 weeks for a complete kitchen remodel!) and everything was very satisfactory. I was most impressed by the personal attention given to my project by the owners - they personally oversaw every step of the remodel & were physically present to make sure things were done well! I give Prestige my highest recommendation. I plan to call them again when I am ready for a bathroom remodel."

The company's spokesperson says, "Our customers repeatedly thank us for our competitive pricing that does not compromise on quality. Our design team is also lauded for their creativity as they understand every customer's needs and propose ideas that honor their individuality. Finally, all the hard work put in by our designers and builders is supplemented by our dedication to only using premium products and materials for all our kitchen and bathroom renovation work."
