Local HVAC Services Provider in Anaheim CA Committed to Offering the Best Quality Services

February 08, 2024

February 08, 2024 -
Haven Air Conditioning, a company based in Anaheim, CA, takes pride in their commitment to always providing the best quality heating and air conditioning services in Anaheim and neighboring areas. The company is an EPA-certified heating, ventilation, and air conditioning contractor with customer-oriented, professional, NATE-certified, fully trained, knowledgeable team members. The services they provide include: AC repair, maintenance and replacement; heat pumps repair, maintenance, and replacement; and furnace repair, maintenance, and replacement. Everyone is committed to always doing the job correctly and quickly, 100 percent of the time.

Haven Air Conditioning offers comprehensive furnace repair and maintenance services that are tailor-fitted to property owners in Anaheim. Their team of expert technicians are skilled in diagnosing and fixing various kinds of furnace problems effectively and efficiently. A spokesperson for the company says, ?From minor repairs to major overhauls, we ensure your furnace operates at optimal performance levels, maximizing its lifespan and energy efficiency. Our proactive maintenance plans offer regular check-ups and tune-ups, preventing potential breakdowns and ensuring your heating system runs smoothly throughout the year.?

They can also provide reliable, fast, and competitively priced heat pump repair services in Orange County, CA, and nearby areas. They will provide a documented repair proposal and after the client has approved it, they will do the necessary repairs to get the heat pump back in service as quickly as possible.

Meanwhile, they are ready to provide professional air conditioning maintenance & repair services to make sure the home is ready for the heat of the summer season in California. Their AC service technicians are in-house and manufacturer-trained regularly so that homeowners in Southern California can rest assured their cooling system will work properly and deliver the needed cool air and make the indoor temperature comfortable.

Their commitment to high quality is evident in the five star reviews Haven Air Conditioning has been receiving. They currently have an overall rating of 4.8 out of 5 stars on Yelp after receiving more than 250 reviews. In a recent review, Jo Dee P. gave them five stars and said, ?We had a 60+ year old furnace; the house original. We thought we had better get it serviced as it was running poorly. Our neighbor referred us to Haven. Matthew at the office set up an appointment for the very next day. [?] The unit?s heat was way hotter than the temp being blown into the house, and there was a crack that would allow CO to be blown into the house which, of course, is very unsafe! He also mentioned that its age made it super inefficient. He believed that it was beyond repair safety wise, and called to have someone come out to see what they could do to replace it. So, Sean turned the heater off to be safe, and within an hour or so Andreas came by to talk about replacement options. The next morning we were freezing, but Ryan and Edgar were prompt and took out our old baby and installed the new one. Ryan made sure we knew how to set up and change the thermostat and made sure that all the vents were receiving the air flow that they should. [?] Everyone of the gentlemen who came to our home was courteous, clean and prompt. We will be contacting them to get us on the books for a check up before the 1 year Lemon guarantee and then another before the 2 yr labor protection and then every 2 or 3 years for a check-up and cleaning."

Established in 2020 by Andreas Laux, Julien Laux, and Marie Linteau as the residential division of Mighty Ducts Heating & Cooling, which was launched in 1997, Haven Air Conditioning has established a reputation as one of the most respected heating and air conditioning services companies in the area. They deliver their services throughout Orange County, California and surrounding areas. The company provides a wide variety of air conditioning systems, such as central air conditioners, indoor air quality solutions, furnaces, heat pumps, and air duct systems. They also offer different kinds of services, such as installation, repair, dryer vent cleaning and maintenance, and air duct cleaning.

Those who would like to know more about the HVAC services available through Haven Air Conditioning can check out their website or contact them on the telephone or through email. They are open from 6:30 am to 8:00 pm, from Monday to Friday and from 8:00 am to 3:00 pm on Saturdays.
