

## **NurseRegistry Offers Private Nurse Care Services in Miami and Southern Florida**

*January 25, 2024*

January 25, 2024 - PRESSADVANTAGE -

NurseRegistry, based out of Miami, FL, is pleased to announce they are offering private nursing care services for clients in Miami and the rest of Southern Florida. They work with an extensive group of highly qualified, dependable, and caring nurses. This means that Miami residents can remain confident that NurseRegistry will always match them with a top-quality nurse for their unique medical conditions. More about NurseRegistry's services can be discovered at <https://www.nurseregistry.com/private-care/florida/miami/>.

Josh Pangan, CEO of NurseRegistry, says, "As a top Miami nurse staffing agency for in-home care, we provide you with peace of mind regardless of any nuanced medical or healthcare situation. Any minute of the day, you can have a licensed nurse oversee your loved one's health and well-being, and assist with their care and pain management. We are very selective of our nurses, so you can be sure your loved one is in good hands."

NurseRegistry not only takes pride in offering a fast private in-home nurse provision process, but they also

make the process of acquiring a nurse as streamlined and convenient as possible. This is made possible by their dedicated support team and industry-leading scheduling flexibility, which means whether a client needs a nurse for a few hours or for round-the-clock care, NurseRegistry can provide the necessary help. More information on this is available at <https://www.nurseregistry.com/private-care/florida/>.

Clients only receive either a high-end registered nurse (RN) or a licensed vocational nurse (LVN) with the experience and education suitable for the patient's specific needs. The in-home nursing care services provided may include: private duty nursing, wellness checks, respite care, palliative care, 24-hour nursing, medication management, in-home teaches, intravenous (IV) therapy, post-op care, airway/ventilation care, hospice care, and pediatric care.

With private duty nursing, patients can have the option of avoiding sitting in waiting rooms, traveling for care, and going to medical facilities and hospitals. Furthermore, NurseRegistry can quickly adjust and offer the necessary care for a patient's medical condition as it changes. Patients will never have to worry about delays in care or the timetable that is typically associated with insurance companies.

Josh Pangan says, "In our experience, the lack of easily accessible information and pressures of insurance companies have led millions of individuals to neglect medical care. It does not have to be that way. With NurseRegistry, we proudly take all of that stress away. As a high-end private-pay nursing solution in Miami, we are never limited by insurance constraints. Instead, we handpick a nurse who is caring, enthusiastic, professional, and experienced in your unique medical situation."

Those who need private nursing care in Southern Florida may visit NurseRegistry's website or contact them through the telephone or by email.
