

Access Interiors Ltd Offers Office Interior Solutions for Companies in Cambridge and the East Anglia Region

January 24, 2024

Cambridge, CB - January 24, 2024 - PRESSADVANTAGE -

Access Interiors Ltd, a Cambridge, UK-based company, is pleased to announce they are offering office interior solutions to businesses in Cambridge and the East Anglia region. Having access to a wide range of modern interior products, they are able to offer solutions to comply with any performance specification and budget for a broad range of projects, from minor interior fit-outs and refurbishment to extensive commercial office design projects.

Their office design services include: office space planning, office refurbishments, office relocations, office dilapidations, office move management, and commercial interiors project management. Office interiors services include: office furniture, office partition systems, suspended ceilings, mezzanine floors, commercial flooring installation, commercial air conditioning systems, and commercial electrical installation.

The high quality of their office interior solutions is attested to by the five star reviews they have been receiving. In one recent five-star review, M. Coley from St. John Ambulance said, "Our task was to completely refurbish an existing commercial building to deliver accommodation for training, offices, garaging and storage for all activities of St John Ambulance in the Cambridge area. From the tenders we received

Access Interiors stood out from the others. They obviously listened to the brief, questioned what they did not understand and ultimately offered a plan which incorporated innovative solutions to the challenges on site. This gave us all confidence as we moved through the project. The end product has been highly acclaimed within St John and is held as a flag ship for future projects. Martin and his team were great to work with and delivered the project on time and within budget. Would recommend highly to others and hopefully work with the Access Interiors team again in the future.?

Access Interiors Ltd can offer help with office refurbishments, whether it is a complete redesign service, redecoration and updating of some flooring, or addition of a mezzanine floor for meeting rooms. They will help the client in identifying dead areas in the office space and evaluate everything that is in place in the office to determine what to keep and what to remove.

They can also help with office space planning, which can provide the benefit of boosting performance and efficiency, interdepartmental communication, and morale. This can also result in savings, particularly in operating costs. Their team of office planning spanning experts can work with any brief to enhance the layout of the current office space.

They can also help in choosing the appropriate office furniture to help bolster the client's corporate image, enhance productivity, and establish an environment where the employees enjoy working in and can help in mitigating health problems that may result from repetitive strain injury (RSI). The spokesperson says, "Whether you are looking for desks and chairs, file storage, canteen seating, bespoke reception desks or board room furniture we can propose and source a wide range of solutions and styles to suit your working practices, aesthetic finish, and budget."

Access Interiors Ltd can also help with commercial interiors project management. They can provide for ceiling, partitioning, and storage wall systems. They can also help in planning and installing structured cabling, electrical systems, and lighting. A spokesperson for Access Interiors Ltd says, "We also understand that any office redesign can be an expensive undertaking. We can even help you to secure finance on your project, helping you to spread the cost of the project and relieve some of the stress. Please don't hesitate to contact us to discuss your project. We'd love to help."

Founded in 1994, Access Interiors Ltd aims to offer interior fit-out solutions for both industrial and commercial projects. They have more than 25 years of experience in commercial interior design, installations, and project management. They have a highly specialised project management team who works facilities managers, contractors, surveyors, interior designers, consultants, and architects to ensure a successful outcome. They have an impressive list of corporate clients, such as Cambridge University, AmeyCespa (East), Avanta TNG, Mott MacDonald, Sepura plc, Smurfit Kappa, Unilever, CAB Cambridge, Carl Zeiss, and Newmarket Race Courses.

Those who are interested in learning more about the services offered by Access Interiors Ltd can check out their website or contact them on the phone or through email.
