

Wrist Support Gloves

?Kasp Media? Launched Their New Exercise Gloves For Cross Trainers

December 24, 2015

December 24, 2015 - PRESSADVANTAGE -

?Kasp Media? is renowned for its high-quality sports niche products. The company has recently launched their latest exercise gloves to their product line with a special discount for their customers.

?Kasp Media? has come up with a highly effective ?Kasp Exercise Gloves? for all sports and workout enthusiasts. It comes with adjustable wrist support wraps designed especially for weight lifting, cross fit, cross training, Yoga and other training methods. It assists in preventing injuries with the help of its custom pressure straps. Since all wrist injuries are due to improper wrist support, the ?Kasp Exercise Gloves? have the solution to solve this issue. The company is making it available at a discounted price for its customers.

Fitness routines are essential for a healthy body, but sometimes, in the absence of a proper wrist support, these routines may end up injuring the person. Men and women are both prone to such injuries. ?We wanted to help people avoid such injuries and our "Kasp Exercise Gloves" are a perfect fitness routine partner for our customers,? said Philip Hewiston ? CEO Kasp Media.

The wrist needs proper support during work-out sessions at the gym as well as in gymnastics, yoga, cross training sessions and other sports activities such as soccer, basketball, tennis etc. ?Kasp Exercise Gloves?, as reported, comes with durable integrated wrist wraps. With adjustable Velcro strap, it provides ample wrist support and can be stretched for a perfect fit. Philip said that the gloves are specially designed to keep fingers opened so that both, men and women, could have a complete finger freedom. He added that the gloves, which are made of a stretchable lightweight material that comes with a thumb lock enable perfect hand movement required for all such exercises.

Being sold in a pair, the discounted exercise gloves are said to be useful in preventing any rips and blisters during work-out. ?We wish to make the work-out sessions completely safe for our clients and these Exercise Gloves are a step towards it,? Philip said.
