Recruitment Agency in Cyprus Offers Job Opportunities and Various Other Services

March 11, 2024

March 11, 2024 - PRESSADVANTAGE -

Uniteam Recruitment Services, a company based in Limassol, Cyprus, offers recruitment agency services, offering various job opportunities in Cyprus and countries abroad, including remote ones in various sectors, such as finance, marketing, operations, and business while they are hiring for contractual and permanent positions. The company is committed to serving as a trusted recruitment agency in Cyprus, providing seamless employment solutions for various businesses in need of employees and job seekers at the same time.

Currently, they want to inform job seekers about trending job categories. These include information technology jobs, marketing jobs, sales and business development jobs, maritime jobs, and audit jobs. Latest available jobs include: recruitment consultant for permanent job in Limassol, Cyprus; financial sales manager, also for permanent job in Nicosia, Cyprus; senior node.js backend developer for permanent job in Limassol; web designer for permanent job in Nicosia; retention agent for permanent job in Limassol; and marine travel operators for permanent job in Limassol. They can also offer assistance with: career guidance, LinkedIn profile optimisation, CV writing services, and interview coaching.

To provide job seekers with an idea of what the jobs entail, for instance, the financial sales manager, the primary duties include: the identification of potential corporate clients via research and leveraging personal networks; arranging and attending business meetings; serving as main contact point between current and new clients and the company; assistance provided to current and new clients in opening accounts and getting the required KYC documentation; and attending networking events both in Cyprus and abroad. More information about this can be gleaned from their LinkedIn page.

To get an idea of technology jobs, the web designer has the primary duties and responsibilities of creating high-end websites based on the client brief using WIX and sometimes with Shopify; making sure that deadlines are complied with; readiness to handle several projects at the same time; development and refining of UX/UI websites to ensure they are user-friendly, visually attractive, and intuitive; ensuring that the design strategy used is in line with the client's vision and goals; and working closely with the branding designer to develop high-end websites.

Various IT jobs include: software QA automation, UX UI designer, business analyst, R&D engineer, IT audit specialist, software engineer, senior data engineer, software delivery and support officer, full stack software developer, SOC analyst, SOC team leader, DevOps engineer, network engineer, senior node.js backend developer, quality officer, junior iOS developer, machine learning / AI officer, SAP human resources consultant, web developer, network support officer, project manager, QA automation engineer, and business analyst.

Marketing jobs include: social media manager, marketing and PR manager, German speaking CRM executive, marketing manager, marketing operations coordinator, graphic and web designer, email marketing specialist, multimedia manager, interior designer, media manager, junior content writer, and web and graphic designer.

Maritime jobs include: marine travel operator, deputy managing director, crewing coordinator, crewing manager, technical superintendent, technical superintendent, marine service engineer, senior fleet personnel manager, technical superintendent, junior travel operator, purchasing administrator, and corporate travel operator.

Sales and business development jobs include: retention agent, financial sales manager, business development manager, business development officer - working abroad, sales executive, account manager, partners support officer, business developer, sales executive, sales assistance, sales associate, business developer, cyber security sales executive, sales business developer, business development officer, and Japanese business development manager.

Uniteam Recruitment Services provides services for customers from the training, shipping, financial, forex, retail, technology, and hospitality industries in Cyprus, Myanmar, Germany, Singapore, Ukraine, and more. Their clientele has been growing fast and includes reputable businesses from various parts of the world. They aim to assist companies to save time and overcome difficulties to streamline their recruitment process and handle their administrative loads. These include: screening, interviewing, and carefully choosing among the various candidates before they recommend them to clients; develop alternatives and looking for professionals based on the specific requests of clients; scheduling and coordination of interviews between the client and the candidates; provision of feedback to the client and objective insight advice during the recruitment procedure; and development of long-term mutual business relationships with the clients and candidates.
