Envision Eye Care Brings High-Quality Eye Care Model to Gray, TN with New Clinic

February 06, 2024

February 06, 2024 -
Gray, TN, 2/5/2024 ? Envision Eye Care has announced the opening of a brand-new location in Gray at the northeast edge of Tennessee. Located at 122 Old Gray Station Rd. Ste 1, Gray, TN 37615, their new office is 25 miles from their nearest office, in Bristol, TN. The goal of this expansion is to provide their accessible high-tech, one-stop-shop approach to eye care to as many people as possible in Northeast Tennessee.

?Our goal at Envision Eye Care is to cultivate positive patient relationships and provide a comprehensive range of optical and medical services for the whole family,? said Dr. Susan Keene, veteran Envision Eye Care doctor and past president of the Virginia Optometric Association. ?We work hard to offer services that are difficult to find nearby under one roof, including important services like myopia management and dry eye treatment.?

Certain eye diseases that can be trickier to identify and treat, like dry eye disease or diabetic retinopathy, require advanced technology to properly pinpoint symptoms and provide personalized solutions. Envision Eye Care has always worked to provide the latest, cutting-edge technology so that regardless of how complex or wide-ranging a person?s needs might be, they will be able to find relief thanks to their

experienced team of eye doctors and opticians.

Envision Eye Care is celebrated by the communities it serves in Virginia and Tennessee for offering quality routine and preventative eye care to families in need. They work hard to serve everyone and take many insurance and payment options, including EyeMed, CEC, VSP, VersantHealth, Spectera, and more.

?The goal is to provide great vision care and symptom relief today, and healthy eyes for life,? said Dr. Keene, ?We are a leader in the region because we are able to provide for most of our patients and their family?s needs in an inviting, friendly environment. Whether you need specialty contact lenses for a specific diagnosis or help managing a chronic condition, we are here to provide immediate comfort and long-term relief.?

Patients greatly benefit from the Envision Eye Care model, which offers a huge selection of eyewear and specialized treatment for eye conditions like glaucoma and dry eye. Part of what sets them apart is how they select their doctors: Envision Eye Care works to ensure that their staff is not only compassionate about providing the best eye care possible to their patients, but also finding new optometrists that complement existing staff and offer specializations that don?t overlap with their peers.

?Diverse staff experience is just another reason we are able to offer the variety that we do,? said Dr. Keene.

Envision Eye Care is currently accepting appointments from both new and existing patients. To schedule an appointment, visit the Envision Eye Care website.

About Envision Eye Care

When it comes to providing eye care for the whole family, there are few practices better than Envision Eye Care. They offer a wide range of services that include both optical and medical support for patients of all ages, which means they can update your prescription and help manage chronic eye diseases, like glaucoma and dry eye. This is all accomplished through their innovative mindset ? led by Dr. Susan Keene, Envision Eye Care stays up to date with the latest technology, ensuring that regardless of prescription or ailment, their experience team of eye doctors and opticians are able to offer something for everyone.
