

All Natural Beauty Product Strengthens Eye Lashes

December 23, 2015

December 23, 2015 - PRESSADVANTAGE -

Oak Park, IL ? Lash Renew is pleased to announce that it is offering a new promotion which is designed to attract new customers who are not sure about the effectiveness of the Lash Renew Growth Serum. The offer is available only to internet customers.

In addition to the no-risk offer from the company, the purchase of eyelash renew serum includes a no-charge bottle of Brow Renew. The website includes testimonials about the effectiveness of both products, but women who still need persuasion can take advantage of the promotion. Some customers report that they no longer need to use artificial lashes since their natural lashes are so much improved.

Customers are pleased to learn that the ingredient list includes only natural products known to be successful in promoting longer, stronger and thicker lashes. Ingredients include Sunflower Seed Oil, Sativa Seed Oil, Althaea Officinalis Root Extract, Meadowfoam Seed Oil, Equisetum Giganteum Extract and ryza Sativa (Rice) Bran Oil.

The product is easy to apply and is effective in promoting the growth of hairs by removing blockages to the hair follicles. Weak and brittle lashes are nourished and strengthened. Protection against some of the typical symptoms of poor eyelash health is gained through a simple, short five-minute application daily of the serum.

Top models and other customers who have tried the serum say that improvement in dry and damaged lashes is seen in just a few days. The free offer of Lash Renew Serum contains a 30-day supply so that adequate testing is possible. The bonus bottle of Brow Renew is a limited time offer when Lash Renew Growth Serum is purchased. Free shipping to United States customers means that the offer is an easy and convenient way to see if the benefits of Lash Renew Growth Serum meet the results described by other purchasers.
