Boise Airbnb Made Comfortable With Custom Ductless System Installation

February 16, 2024

Boise, Idaho - February 16, 2024 -
Peppy Heating and Cooling, Boise?s top Ductless HVAC contractor, is recognized for its continuous innovation in the heating and cooling industry. They have once again validated their trailblazing reputation by successfully incorporating an advanced temperature control system using the kumo cloud® app into one of their projects. As Boise's only Mitsubishi Elite Diamond Dealer, the company's commitment to adopting and promoting energy-efficient technology goes beyond industry norms.

This project revolved around three separate Airbnb rentals on the same property. owned by a local client in Boise, Idaho. These properties were facing several temperature regulation difficulties. In the main house, a temperamental off brand mini split system was causing issues, while the other two properties were trying to cope with inefficient electric baseboard heat and the disruptive noise of old window AC units. Prompted by the growing popularity of high energy efficiency ductless systems, the client sought out the solutions offered by Peppy Heating and Cooling. For a comprehensive understanding of the unique challenges and solution of this project, readers are encouraged to visit: https://callpeppy.com/airbnb-made-comfortable-with-ductless-boise-83702/.

Bringing his years of expertise, Brett Shannon, President of Peppy Heating and Cooling, offered deep insights into this project. He stated, "Our objective was concise - to provide a comprehensive, efficient system that resolves the conflicts between heating and cooling in an energy-conscious fashion." He went on to add, "The evolution of the HVAC industry has taken a significant leap with the installation of Mitsubishi ductless systems integrated with the kumo cloud® app. This progress underlines the industry's focus on energy efficiency and the convenience of remote temperature control offered to homeowners." For a more visual understanding of this transformational undertaking, readers can watch their YouTube video titled: Airbnb Made Comfortable with Ductless in Boise Idaho 83702.

Incredibly, Peppy Heating and Cooling's dedicated ductless installation team completed the project within just

three days. They painstakingly installed a Mitsubishi Multi Zone Mini Split System, including four outdoor units and six indoor heads, all equipped with the advanced kumo cloud® app. The most notable aspect of this approach was the phase-out of antiquated, inefficient window AC units and baseboard heaters. In their place, an innovative system was installed that guarantees energy efficiency and allows unfettered remote control, representing a critical upgrade for the Airbnb rentals.

But Peppy Heating and Cooling's efforts extend beyond mere product and service offerings. They firmly believe in customer empowerment and put considerable effort into educating their customers about various HVAC systems. Their website hosts a plethora of useful resources, including informative blogs, case studies, up-to-the-minute news updates, and membership in a Comfort Club. One case study details the journey of replacing an old, inefficient furnace located in a crawlspace with a state-of-the-art Mitsubishi Hyper Heat Pump that comes with two indoor wall-mounted heads. The resulting transformation led to a significant reduction in operational noise, improved air quality, and crucially, heightened energy efficiency.

Peppy Heating and Cooling's superior HVAC services extend far beyond Boise's city limits. It serves a vast expanse of Idaho, reaching out to locations such as Nampa, Meridian, Caldwell, Eagle, Payette, Fruitland and Emmett. If potential customers wish to take a virtual tour of Peppy Heating and Cooling's location, they can do so via their Google Business Profile.

Backed by a team of skilled technicians, superior quality equipment, and an unwavering commitment to customer satisfaction, Peppy Heating and Cooling consistently provides top-tier Ductless Mini Split HVAC solutions for a broad cross-section of homeowners. As they continue to lead the way in providing efficient, reliable, and forward-thinking HVAC solutions, there is no doubt that they will continue to top the charts as an invaluable service provider, raising the bar for others in the industry.

Based in Boise, Idaho, Peppy Heating and Cooling serves the entire Treasure Valley area. including Nampa, Meridian, Caldwell, Eagle, Payette, Fruitland and Emmett, Idaho. They invite the community to read their case studies or contact the team directly for more information on HVAC systems, custom solutions and more.
