Gilbane Rising Contractor Program

## **Local Powell Electrician Accepted into Rising Contractor Program**

*February 20, 2024*

February 20, 2024 - PRESSADVANTAGE -

Powell, Ohio - Sherwin Electrical, a leading provider of electrical construction services, is proud to announce its acceptance into the prestigious Gilbane Rising Contractor Program.

The Gilbane Rising Contractor Program is designed to support and mentor diverse and disadvantaged trade partners, providing them with the opportunity to enhance their industry skills and knowledge. Over the next five years, Gilbane has committed to generating \$100 million in awards to program graduates, demonstrating its dedication to fostering growth and diversity within the construction industry.

"I'm excited to start this program," said Dan Sherwin, Owner and Operator, "as it signifies a new chapter for Sherwin Electrical as we grow the commercial electrical construction side of our business! Gilbane is the leader in commercial construction in Ohio as well as Nationwide and we are grateful for the mentorship opportunity."

Upon successful completion of the program, participants, including Sherwin Electrical, will enter a one-year formal mentorship agreement with a senior-level Gilbane representative. This mentorship process aims to further develop participants' capabilities and facilitate their prequalification with Gilbane, preparing them for bid opportunities upon graduation.

As Sherwin Electrical prepares to embark on this transformative journey, the company looks forward to leveraging the invaluable insights and mentorship provided by Gilbane to enhance its service offerings and contribute to the success of future construction projects.

To qualify for participation in the program, Sherwin Electrical has committed to meeting several essential criteria. Firstly, the company submitted a comprehensive application to Gilbane representatives, providing detailed information to showcase its qualifications and commitment to the program's objectives. Additionally, Sherwin Electrical has pledged to ensure that two individuals from the firm, including a business owner, will attend all sessions of the program. This commitment demonstrates Sherwin Electrical's determination to maximize the benefits of the program and implement newfound knowledge within its operations.

Furthermore, Sherwin Electrical will actively engage in the Gilbane pre-qualification process on Compass, a crucial step towards preparing for bid opportunities and establishing a strong foundation for future collaboration with Gilbane. The company also holds certification in one of the required categories, such as Minority-Owned Business Enterprise (MBE), Women-Owned Business Enterprise (WBE), or others, reaffirming its status as a diverse and qualified contractor ready to contribute meaningfully to the construction industry.

Moreover, Sherwin Electrical meets the program's requirement of being in business for at least two years, demonstrating its stability, experience, and capacity to thrive in the construction sector.

For more information about Sherwin Electrical and its participation in the Gilbane Rising Contractor Program, please contact Dan Sherwin, company owner.

Sherwin Electrical has established itself as a trusted partner in the electrical construction industry, with a track record of delivering high-quality services tailored to the unique needs of each client. With a focus on excellence and innovation, Sherwin Electrical has earned a reputation for reliability, efficiency, and exceptional craftsmanship.

The company's commitment to customer satisfaction is evident in its collaborative approach to projects, where client input is valued and incorporated at every stage of the process. Sherwin Electrical's team of skilled professionals brings expertise and dedication to every project, ensuring that deadlines are met, and expectations are exceeded.

Sherwin Electrical's acceptance into the Gilbane Rising Contractor Program is a testament to its dedication to growth, excellence, and diversity. As the company embarks on this new chapter, it remains committed to upholding its values and driving innovation in the construction industry.
