

Gerard's Tree Service Earns Five-Star Review for Outstanding Arborist Services in Florida

March 01, 2024

ST JAMES CITY, FL - March 01, 2024 - PRESSADVANTAGE -

The highly-regarded Gerard's Tree Service, a certified arborist company located in St. James City, Florida, has recently been praised through a five-star review on Google Maps. This accolade reaffirms the firm's commitment to professional tree care services, offered to its wide-ranging clientele of both residential and commercial properties.

Gerard's Tree Service proudly offers an expansive range of services. Over many years, it has established a solid reputation in the tree management field through its proficient delivery of various services. These include tree removal, stump grinding, tree trimming, wildfire mitigation, and the intricate task of mangrove trimming. Gerard Cicoria, an ISA-certified arborist with more than 25 years of practical experience, leads the accomplished team. Working alongside him is Ben Armstrong, a Florida native with over 30 years' worth of knowledge and skill in the trimming and shaping of native trees.

A standout feature of Gerard's Tree Service is their commitment to providing 24/7 emergency service. This

timely and swift response, particularly during the aftermath of a storm, exemplifies the company's dedication to their customers. Gerard Cicoria, speaking about this commitment stated, "To ensure that our services are always available during sudden needs, we remain reliable and swift in our response."

The recent five-star review of Gerard's Tree Service on Google Maps speaks volumes about their unwavering high levels of work ethics, reliability, and professionalism. Such glowing feedback validates their reputable status as a leading provider of tree care services. The endorsement proves the effectiveness of the company's efforts in providing quality services consistently.

Gerard's Tree Service espouses values of safety and environmental conservation. This is best exemplified through their 'zero-impact' tree removal service. This provision guarantees that no dents, holes, ruts, or debris are left on the property after a tree removal process, essentially maintaining the aesthetic of the property as it was before. To achieve this, the company operates advanced equipment such as 60-foot aerial lifts and portable stump grinders.

The company is well aware of the potential threat wildfires pose to Florida properties. In response, Gerard's Tree Service provides preemptive wildfire mitigation services. Here, they create defensible spaces around properties by eliminating possible fire hazards. Actions include the removal of dead or dying trees, the trimming of low-hanging branches, and more. Gerard Cicoria states, "Safety of the client's property and ecologically conscious operation are our utmost priorities."

Gerard's Tree Service also stands out for its specialized service in mangrove trimming - a task that demands specific certification. This task underlines the company's commitment to preserving Florida's sensitive ecosystems. For more detailed information on the comprehensive services offered by Gerard's Tree Service, interested parties can visit their official website.

The company operates 24/7 due in part to the unpredictable nature of their services. This accessibility showcases Gerard's Tree Service's customer-focused approach, incorporating flexible scheduling while upholding high-quality and safety standards. The latest five-star review of Gerard's Tree Service reaffirms their position as a considerable presence in the tree service sector and validates their unflinching dedication to offering superior service to their clients.
