

# Athré Facial Plastics Introduces Advanced Neck Lift in Houston

*February 27, 2024*

February 27, 2024 - PRESSADVANTAGE -

Houston, TX ? Athré Facial Plastics, a premier aesthetic office led by double board-certified facial plastic surgeon Dr. Raghu Athré, proudly announces its advanced neck lift in Houston for women and men who want to address signs of aging in the neck area.

The neck, composed of skin, a collagen-rich matrix layer, and a deep muscle layer known as the platysma, is highly susceptible to the effects of aging, gravity, and genetics. Over time, these factors can lead to a loss of elasticity and support in the neck tissues, resulting in sagging skin, excess fat, and the loss of definition.

Dr. Athré specializes in surgical neck lifts and neck liposuction procedures to correct these concerns, restoring a youthful and defined appearance to the neck. Athré Facial Plastics also focuses on rhinoplasty, facelift, and eyelid surgery, ensuring that patients have a variety of options to suit their needs with personalized treatment plans.

Dr. Athré's advanced neck lift solutions aim to address the underlying causes of aging in the neck, helping patients achieve natural-looking results and renewed confidence. Athré Facial Plastics is located in the Galleria area of Texas and sees patients from nearby cities like Houston, Katy, Pearland, Sugarland, and Clear Lake, as well as neighboring states. The practice is also proud to be a facial plastic surgery destination for people from Mexico, Columbia, Argentina, Venezuela, Iran, and beyond.

Patients visiting Athré Facial Plastics can expect a comprehensive consultation with Dr. Athré, where their concerns and goals will be carefully evaluated. Dr. Athré's meticulous approach ensures that each patient receives personalized treatment recommendations tailored to their specific needs, whether it involves surgical intervention or non-surgical options. Athré Facial Plastics helps out-of-town patients coordinate accommodations for patients before and after their procedure, ensuring a smooth and seamless neck lift or other facial plastic surgery experience with Athré Facial Plastics and Dr. Raghu Athré.

Dr. Raghu Athré's extensive training and commitment to excellence have earned him recognition as one of

the best facial plastic surgeons in Houston. With a background in chemical engineering and a passion for creating functional and aesthetic solutions, Dr. Athré brings a unique perspective to the field of facial plastic surgery. Dr. Athré relates facial plastic surgery to engineering. Both require analysis, attention to detail, and a precise plan of action. "Furthermore, one must always have a backup game plan," says Dr. Athré, who makes it a point to walk through each part of the plastic surgery process with his Houston patients from analysis to the treatment plan.

Dr. Athré's Houston facial plastic surgery patients appreciate the extensive knowledge, skills, and meticulous attention to detail that he brings to every surgical procedure. He is available 24/7 and takes the time to thoroughly educate each patient regarding every stage of their procedure, whether it is a neck lift, rhinoplasty, or a non-surgical offering. These are among the many reasons Dr. Athré is considered one of the best facial plastic surgeons in the Houston area.
