

Go Industries Inc. Unveils Chv1-Compatible Medium Duty Grille Guards for Enhanced Truck Protection

March 04, 2024

Richardson, TX - March 04, 2024 -
Go Industries Inc. is proud to announce the release of its Medium Duty Grille Guards, a unique product specifically designed for Chevrolet C4500 and C6500 trucks. Go Industries, with over 40 years of experience, caters to a varied range of sectors, including truck accessories, law enforcement equipment, and custom manufacturing needs.

Founded in 1978, Go Industries has solidified its standing in providing top-quality truck accessories, including comprehensive protection for the front and back of trucks. A notable product in their wide array of offerings is the Chevy C4500 winch grille guard. This device was meticulously designed to fit a tilt body, thereby allowing easy access to the hood of the truck.

A spokesperson for Go Industries mentions, "The quality craftsmanship of our Medium Duty Grille Guards ensures that no cutting or drilling is required. These have been designed with a secure mount in mind, enabled by an OEM-style two latch locking mechanism, complete with safety pins."

In addition to this, the Medium Duty Grille Guards are full-size units including a winch tray, capable of accommodating up to a 16.5k winch and compatible with most brands. This further amplifies the usefulness of the Chevy C4500 winch grille guard. To increase headlight protection, the company offers Brush Guards, made of 1.9", 14 gauge tubing and 2.5" center cross tubes. The center screen is laser cut from 18-gauge material, ensuring a top-notch quality that withstands the elements. Customers can appreciate the value of domestic production, as the products feature a black textured powder coat finish and proudly bear the tag of "Made in the U.S.A."

The versatility of the Chevy C4500 winch grille guard is seen in its compatibility with other vehicle lines like the International CV515, Ford F650, and Ford F750. Go Industries accommodates customer preferences, offering variations based on the year, make, model and the option to include a winch carrier with their orders.

Recognizing the significance of customer support, Go Industries provides a wealth of resources, which includes product instructions, warranty information, informative posts, and videos. The company's Platinum Status with SEMA is a testament to the high standard of service and quality of products they offer.

In tune with the evolving relevance of technology in modern commerce, Go Industries now accepts cryptocurrency payments. For detailed information on our diverse array of services and products, including our custom manufacturing capabilities and the specific equipment we provide for law enforcement vehicles, visit our comprehensive website.

Apart from truck and law enforcement accessories, Go Industries also offers bespoke manufacturing services to deliver custom solutions.

"Our unwavering commitment to excellence is driving Go Industries," said the company's CEO. "We take pride in serving our customers by offering versatile products and bespoke manufacturing services that meet their unique requirements."

The firm's dedication to meeting the demands of its customers with excellence, highlighted through products like the Chevy C4500 grille guard and winch carrier, has played a significant role in establishing Go Industries as a leading name in the industry.
