

Local HVAC Company In Mount Pleasant Proudly Sponsors Mount Pleasant Academy's SeeWee Soiree Cup

March 06, 2024

March 06, 2024 - PRESSADVANTAGE -

Mount Pleasant, SC. - Aptus Home Services, a leading provider of home maintenance solutions, is delighted to announce its sponsorship of the annual SeeWee Soiree Cup at Mount Pleasant Academy. As the Cup Sponsor for this esteemed event, Aptus Home Services reaffirms its commitment to supporting education and community initiatives.

The SeeWee Soiree is a cornerstone event in Mount Pleasant Academy's fundraising calendar, with this year's goal set at an ambitious \$100,000. These funds are vital for supporting various opportunities that benefit the entire school community, including crucial programs such as the Spanish curriculum and teachers, the STEAM robotics program, the Artist-in-Residence Program, and the school-wide garden and related curriculum.

Expressing his enthusiasm for the sponsorship, Mr. Ervin Chase, Owner and Operator of Aptus Home

Services, stated, "I am proud to be a sponsor for this year's fundraising event. I have nothing but great things to say about the teachers and Principal at this school. Since coming back to school after COVID, a couple of my daughters have needed some extra tutoring and support, and the staff at MPA has been there every step of the way to help get my girls back on track."

Mr. Chase continued, "It has taken a lot of time, planning, and discussions to get them back where they need to be, but I am grateful for their commitment and dedication to their profession, and I know that my girls are too. Specifically, I would like to thank Mrs. Quirin, Mrs. Wadsworth, and Ms. Jackson. I am sure that every parent can share a similar story, and I would encourage each parent to contribute to this year's fundraiser to show our support for our teachers and some of these new opportunities at our school."

The funds raised through the fundraiser will directly contribute to enhancing the educational experience for students at Mount Pleasant Academy. From expanding language learning opportunities to fostering creativity through the Artist-in-Residence Program, every contribution plays a crucial role in shaping the future of Mount Pleasant Academy's students.

The inclusion of Spanish language instruction at an early age offers numerous cognitive benefits for elementary school students. Research has shown that learning a second language enhances problem-solving skills, creativity, and critical thinking abilities. Moreover, exposure to different cultures fosters empathy and appreciation for diversity, preparing students to thrive in an interconnected world.

The STEAM robotics program at Mount Pleasant Academy provides students with hands-on learning experiences that integrate science, technology, engineering, arts, and mathematics. Engaging in robotics activities not only cultivates technical skills but also promotes collaboration, communication, and perseverance. These essential 21st-century skills equip students with the tools they need to succeed in an increasingly technology-driven society.

The Artist-in-Residence Program enriches the educational experience by immersing students in various forms of artistic expression. Exposure to the arts stimulates imagination, self-expression, and problem-solving abilities, nurturing well-rounded individuals with a lifelong appreciation for creativity.

The school-wide garden and curriculum initiative at Mount Pleasant Academy offers students a unique opportunity to connect with nature and learn about environmental stewardship. Engaging in gardening activities teaches students valuable lessons about nutrition, sustainability, and the interconnectedness of ecosystems.
