Peppy HVAC Delivers Intelligent Heating Solution To Warm Springs Boise Home

March 22, 2024

Boise, Idaho - March 22, 2024 -
Peppy Heating and Cooling, a top HVAC contractor, has announced their exciting accomplishment in a recently conducted case study. They assisted a Boise, Warm Springs area homeowner having trouble sustaining a comfortable temperature in his two-story house, specifically in his master bedroom situated in the basement. To address this issue and enhance energy efficiency, Peppy Heating and Cooling installed a Mitsubishi Dual Fuel Intelli Heat Gas Furnace and a Hyper Heat Inverter Outdoor Unit in the Boise, Warm Springs area.

CEO Brett Shannon of Peppy Heating and Cooling stated, "This was an opportunity for us to show that highly efficient heating and cooling systems can turn any room into a comfortable living space."

Their tailored solution included a wall mount head in the homeowner's main bedroom for effective temperature management (often termed 'zoning'). Additionally, they installed a Dual Fuel System that harnesses gas and electric energy to maximize efficiency and an Inverter-driven system, which adjusts capacity according to the room?s temperature, consequently conserving energy.

This upgrade significantly improved the home's heating and cooling performance, transitioning from an 80% efficient furnace with a single-stage air conditioning system to a Mitsubishi Intelli-Heat Coil with an American Standard S9V2 97% efficient Furnace and an inverter-driven heat pump. Moreover, they installed a ductless head in the basement, giving the homeowner the flexibility to regulate his room's temperature to his preference.

"Investing in such a high-end system resulted in energy cost savings that paid for themselves in the long run while greatly enhancing the homeowner's comfort," observed Brett Shannon.

The homeowner noticed drastic improvements in home comfort and heating and cooling system efficiency

upon the project's completion, along with substantial energy bill savings. The installed systems also qualified him for the 25C tax credit, potentially amplifying his financial savings. For more information on how the 25C tax credits can impact you, visit our website to find out about HVAC rebates and incentives in Idaho. Peppy Heating and Cooling recommends bi-annual system maintenance, regular furnace filter replacement, and monthly indoor wall mount unit cleaning to extend the system's lifespan and efficiency.

Peppy Heating and Cooling demonstrates a deep commitment to their customers' welfare, comfort, and resource conservation through this case study. Offering a broad array of services to a wide region of Idaho that includes but is not limited to HVAC system installation, repair, and maintenance, as well as ductless system services in Nampa, Meridian, Caldwell, Eagle, Payette, and Fruitland. For a comprehensive list of the areas we serve and more on our services, visit our website. The company combines advanced technology and field experience to provide innovative HVAC solutions. Peppy Heating and Cooling?s consistent dedication to quality, performance, and customer satisfaction strengthens their reputation as a trusted HVAC contractor.

Whether they're implementing dual fuel systems or offering customized comfort zoning solutions, the prowess of this HVAC contractor is indisputable. They are prepared to take on challenges and provide effective and dependable solutions time and time again. They succeed in emphasizing their mission to provide total home comfort while upholding environmental responsibility, adding significant value to all their services and products. Through constant innovation and exceeding customer expectations, Peppy Heating and Cooling continues to be a leader in the HVAC service industry.
