

Bedford's Premier Mobile Spray Tan Service, The Glo Show, Unveils Fresh Look and Enhanced Website

March 14, 2024

London, England - March 14, 2024 - PRESSADVANTAGE -

The Glo Show, a leading mobile spray tanning service, recently debuted a fresh brand identity and launched a revamped website. The company, based in Bedfordshire and recognised for eight years of outstanding service, is celebrated for its commitment to high-quality, cruelty-free, and vegan tanning experiences. The Glo Show's recent enhancements are part of their ongoing initiative to make their services more user-friendly and reachable to their expanding clientele.

On reflecting about this significant corporate milestone, The Glo Show's founder, Bernii Francis, stated, "We encourage our clients to embrace their bodies and make self-care a priority. Our rebranding and website revamp are a reflection of our mission to inspire self-confidence among our clientele."

The services offered by The Glo Show range from standard spray tanning to bridal spray tanning and tanning parties. These offerings are designed to be convenient and mobile, tailored to meet the clients' needs and focused on providing a nourishing and moisturising experience for the skin. Upholding high-quality standards, the company uses only Nouvatan products well-regarded for their natural and organic active ingredients, which are free from parabens, oils, and alcohol.

Distinctly, The Glo Show distinguishes itself in the tanning industry with its specialisation in bridal spray tanning. Recognising the importance of looking and feeling your best during this unique occasion, the company offers trial spray tans and bridal tanning parties. Moreover, personalised services allow the spray tan shade to match each bride's preference, ensuring a flawless tan for the wedding day.

"We acknowledge the anticipation leading up to the wedding day. Our team ensures that the bride gets a custom and perfect spray tan well ahead of the ceremony, so she looks and feels amazing," Bernii commented on their unique bridal tanning services.

The Glo Show also caters to groups with their tanning parties, in addition to individual and bridal spray tanning. These parties offer a fun way for friends to enjoy their tanning experience together while benefiting from a group discount. For more information on our bridal spray tanning services and tanning parties, visit our updated website where we provide detailed insights into making your special occasions even more memorable.

Beyond its services, The Glo Show strives to create a welcoming environment for all clients and is known to be a trusted ally of the LGBTQIA+ community. The company strongly believes in the confidence that a great tan can instill, and consistently seeks to ensure that clients feel ready to face the world after their services.

A significant aspect of The Glo Show's recent transformation involves investing in luxury, non-streak, cruelty-free products that are also vegan-friendly. This initiative indicates the company's dedication to quality and sustainable practices, distinguishing it from competitors and meeting the demands and expectations of today's health-conscious and environmentally-aware consumers.

With that said, potential and existing customers are all invited to visit The Glo Show's updated website. The revitalized online platform provides a comprehensive perspective on all services, products, and the company's mission, reinforcing its dedication to quality and consumer focus. By merging luxury with the convenience of home-based services, The Glo Show, colloquially known as "Spray Tan Bedford," continually represents inclusive and high-quality tanning solutions.

As Bernii Francis elaborates, "Our new brand identity, combined with our taken up online presence, intensifies our commitment to delivering the best. We take great pride in our brand and are dedicated to building a body-positive and empowered following."
