

Indian Wedding Photographer Bipin Dattani Launches Digital Wedding Package

December 23, 2015

December 23, 2015 - PRESSADVANTAGE -

Indian Wedding photographer Bipin Dattani has announced a brand new offering. Now, couples can receive their high-resolution files via USB, which can be used to transfer images to an iPad, digital frame, or other device. Clients can even make prints for themselves.

Dattani is a top London wedding photographer who specializes in Indian and Asian wedding photography for local and destination weddings alike. As one of the best Indian wedding photographers in London, Dattani works one-on-one with couples to achieve photos that will last a lifetime.

Dattani enjoys employing creativity and premium quality into each and every project while specializing in Indian and Asian weddings. With the new service, clients receive a USB with their high-resolution files inside a personalized case. Further information can be found at <http://www.bipindattani.com>.
