

David Kummer Unveils Next Psychological Thriller Book in the "House on the Hill" Series, "The Silent Forest"

March 18, 2024

Sellersburg, Indiana - March 18, 2024 -
David Kummer, a notable author who specializes in horror, thrillers, mysteries, and young adult fiction, has announced that his upcoming novel, "The Silent Forest", is now available for pre-order. This new novel is the second entry in the highly successful House on the Hill series, a thrilling horror saga created by Kummer himself. The announcement comes shortly after the release of his previous title, "The Misery House", which formulates the compelling starter piece to the "House on the Hill" series.

Known for swift pacing, startling plot twists, and unpredictable conclusions, Kummer's works, including the "House on the Hill" series, cater to a wide audience of avid readers. The "House on the Hill" series leads readers through a labyrinth of suspense, commencing with the horrifying experiences of the central characters, the Woods family, in a haunted house set in a small town called New Haven.

The initial book of the "House on the Hill" series, "The Misery House", guided readers into the dystopic setting

of New Haven. This wasn't just any town, but one where mysterious tragedies unfolded. The Woods family, the focal point of the book, was revealed as trapped within the myriad layers of mystery and danger shrouding the town. "The Misery House?? an engaging psychological thriller? served as an introduction to the Mystery House Book series, unraveling the initial chapter of this dread-laced story while laying the groundwork for sequels in the "House on the Hill" series.

The sequel, "The Silent Forest", a fresh addition to the House on the Hill series, promises to continue the narrative. As New Haven records more disappearing residents and a growing pile of unresolved cases, the Woods family persists in their quest for answers. A new discovery in the forest sparks a ray of hope, but simultaneously, it could lead to the revelation of the town's grim secrets. However, despite the escalating challenges, the indomitable Woods family remains committed to digging out the concealed truth.

"The Silent Forest provides further depth to the plot that we initiated in The Misery House," says David Kummer, the creative mind behind the gripping "House on the Hill" series. He further added, "With the Woods family, readers will dive deeper into the mysteries of New Haven. I am confident they will enjoy the horror and excitement this novel imparts, a lot like they did with The Misery House, which did a commendable job of launching the 'House on the Hill' series."

In addition to crafting engaging fiction, Kummer is also active on his blog, wherein he shares insights into his writing process and updates about his works. His website houses an extensive collection of his published novels, each complete with detailed descriptions, cover artwork, and buying links. Authentic reviews of his books are also available, offering potential readers a direct reference point for understanding, appreciating, and choosing his stories. A special section dedicated to Kummer's expeditions into the horror genre, particularly the "House on the Hill" series, is another notable feature.

Kummer's personal life experiences, from his childhood in a small, historically rich town named Madison, Indiana to his present role as a full-time English teacher for 9th graders in New Albany, have had a significant influence on his creative writing style. These experiences combined with his vivid imagination render his storytelling uniquely captivating, earning him distinct recognition in the literary world.

The author's wife and spokesperson outlined, ?His teaching commitments, running parallel with his writing duties, and his constant interaction with young minds lends shape to his novels. They are well-crafted, imaginative, and appeal to young adult readers. With the anticipation of continued writing from Kummer, the next sequel in the 'House on the Hill' series will undoubtedly deliver a thrill.?

"The Silent Forest" is now available for pre-orders at a special price of $3.99, with a slated delivery date of

June 7, 2024. Readers are encouraged to make the most of this opportunity and pre-order their copy of this engrossing sequel from the "House on the Hill" series right away. Readers keen on gaining access to exclusive content from David Kummer are invited to sign up for his newsletter available on his website. They also have an option to directly reach out to the author via the site.
