

New Amazing Color For Highly Rated Umbrella Released

January 02, 2016

January 02, 2016 - PRESSADVANTAGE -

Valley Cottage, NY business Crown Coast Umbrellas is proud to announce that they have now added a special design to their popular umbrella. The sky blue model is the first to be available not in a solid block color, but rather with images of white clouds on the inside. To celebrate, the umbrellas will be available with a 15% discount for a limited time only. To access the discount, customers simply enter the code 'NOTWET15' at checkout. The umbrella is available through <http://www.amazon.com/dp/B015ILHPSU>.

Sam Moir from Crown Coast Umbrellas says: "Nobody likes wet, drab, dreary days. Unfortunately, they happen and particularly this year, when we have seen unseasonably mild and wet weather. Our umbrellas have long been available in a range of different colors but we wanted to add something a bit more special in the form of our sky blue model. And to celebrate this, we have a whopping 15% discount as well. But hurry, stocks are running low already!"

The new sky blue umbrella is exactly as the name suggests: sky blue. On the inside, there is a very realistic print of white clouds, which give a feeling of sunshine and warmth. The design is like a little ray of sunshine on an otherwise gray day, and this is one of the many things that is already making the product very popular.

In fact, the umbrella is a five star rated product on Amazon thanks to the hundreds of positive reviews that it has received. "With its heavy duty 60 mph wind tunnel tested rating, its flex memory frame that snaps back into place without destroying the umbrella, its 100% polyester non-absorbent polymer canopy that is water repellent and abrasion, mold, and mildew resistant, what more could you ask for," says Pat B. "But there is more. The stainless steel frame is treated with an anti-corrosion layer that makes it rust resistant. A single button opens and closes the umbrella so there is no more fighting a wet canopy when all you want to do is get under shelter. On top of all this, Crown Coast offers a guarantee for life that if you experience any defect in their product you receive a replacement or your money back."
