

French Press Style Coffee And Tea Maker For Best Aroma And Flavor Receives Rave Reviews

December 31, 2015

December 31, 2015 - PRESSADVANTAGE -

Phoenix Treasures LLC, a business located in Cape Coral, FL, has recently released a new French style coffee press. In a short period of time, it has become obvious that customers are seeing the value and quality of the product. Full details are available at <http://www.amazon.com/dp/B010U4EL0U>.

"We're so happy to see that our coffee press is being well-received," says Robert King from Phoenix Treasures LLC. "We fully stand behind its quality and it is always nice to hear that other people actually notice the benefits that we believe our product has."

The coffee press is both strong and stylish. Made from stainless steel and borosilicate glass, it means that it will not shatter under the heat of boiling water while looking good at the same time. Furthermore, it has a two screen press, which means that no grounds will escape into the coffee. It also comes with two free extra screens with each order, which means people can enjoy that perfect cup of coffee for a very long time.

Phoenix Treasures LLC prides itself on the quality and style of their products, as well as their fantastic value and on their customer service. These are all things that have been noted by their customers. "This French

Press delivers that deep, bold, rich flavor you would expect to find in a small Parisian cafe," says June B. "The French Press by Phoenix is a piece of art itself. Heavy glass surrounded by shiny metal with a sleek handle make this press a conversation piece. I love everything about this French Press and I'm wondering why I waited so long to get one." Details about the values of the company and the philosophy behind the coffee maker can be found on Phoenix Treasure's website at www.phoenixtreasuresllc.com.

The company also encourages everybody to give them a 'Like' on Facebook through <https://www.facebook.com/Phoenix-Treasures-LLC-460358727476897>. This is an opportunity for people to become involved in conversations around the French press coffee maker, or to share their uses of it. Additionally, liking the page means that they will be first to hear about any new product developments.
