Lammon Bros Unveils Redesigned Site, Streamlining Access to Premier Landscaping Products

April 08, 2024

Delta, Ohio - April 08, 2024 -
Lammon Brothers, headquartered in Delta, Ohio, with services extending to Toledo, Northwest Ohio, and Southeast Michigan, is thrilled to announce the launch of their redesigned website. This upgrade is aimed at improving the user experience for those in need of landscaping product delivery services. The company now offers a quicker method for placing orders for same and next-day delivery on a wide variety of bulk sand, stone, mulch, and topsoil products, intending to streamline the process for both their residential and commercial clients, ensuring their landscaping projects progress without delay.

Since its inception in 2002 by Bob and Jim Lammon, Lammon Brothers has evolved significantly, providing a broad spectrum of services. The unveiling of their new website is a calculated move to embrace digital solutions to enhance customer service and the efficiency of their landscaping product delivery system. The website's user-friendly interface provides detailed product descriptions, an efficient ordering process, and incorporates a product calculator tool to help customers determine the precise amount of material needed for their projects.

Jim Lammon, the co-founder, highlights the significance of this new website by stating, "Our commitment to customer satisfaction is at the core of everything we do at Lammon Brothers. With the initiation of our new website, we aim to ensure our clients have access to top-quality landscaping products, quickly and seamlessly. We?re dedicated to making their purchasing experience as convenient as possible, acknowledging that time and accuracy are crucial aspects of any landscaping project."

Moreover, https://lammonbros.com/ acts as an educational platform, providing a wealth of knowledge on topics such as enhancing garden potential using quality topsoil, the benefits of recycling yard waste, and how to carry out cost-effective landscaping projects with mulch, topsoil, and stone. This initiative is aligned with Lammon Brothers' vision to not only supply superior landscaping products but also to arm their clients with the knowledge necessary for achieving the best outcomes in their landscaping initiatives.

Lammon Brothers also shows a strong commitment to environmental sustainability through their yard waste recycling services. This allows residents of the Toledo area to dispose of materials like brush, grass, and leaves responsibly, promoting community involvement in environmental conservation efforts.

Reflecting on the company?s growth and future goals, Jim Lammon mentioned, ?From our humble beginnings with just a truck and a mower, we have witnessed extensive growth over the years. The launch of our new website is a testament to our ongoing evolution and dedication to serving our customers better. It is more than just a platform for selling products ? it is a comprehensive resource aimed at empowering our customers, facilitating their success in landscaping projects, which in parallel, defines our success.?

For individuals interested in discovering the range of products and services offered by Lammon Brothers or seeking their expertise in landscaping, visit their new website.
