

Portland Based Logistics Company, Ice Break Shipping, Provides Cost Effective Solutions for Small Businesses

March 27, 2015

March 27, 2015 - PRESSADVANTAGE -

Portland, OR (March, 28 2015) ? It is a fact that many small businesses need to ship freight on a limited budget. Traditionally, less-than-a-truckload (LTL) shipping service can be difficult and pricey for entrepreneurs and small businesses. Many larger shipping companies simply cannot affordably accommodate their needs.

Ice Break Trucking (IBS) CEO Augusto Beato founded IBS on the principle that entrepreneurs and small companies should have access to the highest quality in shipping and customer service at the same price as large company counterparts.

Utilizing a network of over 8,200 power units, 14,000 pieces of trailing equipment operated by Landstar owners and over 25,000 other third-party trucking providers, IBS is able to find the most personalized and cost effective solution for LTL logistics.

IBS services include LTL and truckload, air freight, ocean cargo, warehousing, rail, heavy haul and expedited

services. With freight optimization and shipment visibility including coordination of bidding, scheduling, shipping, tracking, invoicing, and reporting customers can rest assured. In addition, IBS is saving their customers on average, \$250 per load. This ease and transparency is securing IBS as a leader in shipping and logistics.

Mr. Beato "we are making less-than-a-truckload (LTL) shipping headaches a thing of the past".

Receive a free, no obligation ltl shipping quote .

About Ice Break Shipping: Founded by CEO Augusto Beato in year, IBS is an independent Landstar agent, one of the biggest logistics and supply chain companies in the country, which offers global and domestic transportation services covering transportation by land, air and ocean. IBS has successfully shipped over 48 thousand loads, has over 8 thousand satisfied customers and saves customers an average of \$250 per load. IBS has access to 8,200 power units, 14,000 pieces of trailing equipment and about 25,000 other approved third-party truck capacity providers. This also covers shipping in land, air and ocean.
