NJ Metro PC Repairs Achieves RSAG Accreditation as a Trusted Online Support Provider

May 22, 2024

May 22, 2024 -

NJ Metro PC Repairs, a Montclair, NJ based provider of remote computer support services nationwide, is proud to announce that it has been accredited by the Remote Support Accreditation Group (RSAG) as a Trusted Online Support Provider. This accreditation recognizes NJ Metro PC Repairs' commitment to delivering exceptional technical expertise, robust security measures, outstanding customer service, and fair pricing practices.

Founded by long-time computer repair professional Chris Mallistone, NJ Metro PC Repairs has been providing online computer support to customers across the United States for over 15 years. The company's team of certified computer technicians specializes in a wide range of services, including virus removal, email repair, system optimization, software troubleshooting, and general computer assistance. With a focus on convenience and customer satisfaction, NJ Metro PC Repairs has built a reputation for delivering fast, reliable, and stress-free solutions to customers' computer problems.

The Remote Support Accreditation Group, an independent organization dedicated to promoting trust and reliability in the remote support industry, awarded NJ Metro PC Repairs a perfect five-star rating across all evaluated categories. To earn this prestigious accreditation, NJ Metro PC Repairs underwent a rigorous assessment process that examined the company's technical capabilities, security protocols, customer service standards, and pricing transparency.

"We're honored to receive this recognition from RSAG," said Chris Mallistone, founder and CEO of NJ Metro PC Repairs. "Our team works tirelessly to provide our customers with the highest level of service and support, and this accreditation validates our efforts. We're committed to upholding the standards set by RSAG and continuing to deliver exceptional remote computer support to our customers nationwide."

As an RSAG accredited provider, NJ Metro PC Repairs will be listed in RSAG's Directory of Trusted Online Support Providers, a valuable resource for consumers seeking reliable and trustworthy remote support services. The company will also be able to display the RSAG Trusted Provider seal on its website and marketing materials, further reinforcing its commitment to excellence and integrity.

"We're thrilled to welcome NJ Metro PC Repairs to our growing list of accredited providers," said Robert Cedar, founder of RSAG. "The company's dedication to technical proficiency, security, customer service, and fair pricing aligns perfectly with our mission to promote trust and reliability in the remote support industry. Consumers can feel confident in choosing NJ Metro PC Repairs for their remote computer support needs."

In addition to its technical expertise, NJ Metro PC Repairs is committed to providing transparent and affordable pricing. The company charges a straightforward hourly rate of \$75, with a one-hour minimum and quarter-hour increments thereafter. Customers can expect no hidden fees or surprise costs, and the company stands behind its work with a "no fix, no fee" policy and a 90-day labor guarantee.

"At NJ Metro PC Repairs, we understand that trust and reliability are the most important things when it comes to remote technical support," said Mallistone. "Our RSAG accreditation reinforces our commitment to providing our customers with the highest level of service, security, and value. We look forward to continuing to serve our customers nationwide and helping them keep their computers running smoothly."

About NJ Metro PC Repairs:
