

# Colonial Flag Releases New Flag Luma-Disc™ Flagpole Light

*December 29, 2015*

December 29, 2015 - PRESSADVANTAGE -

Colonial Flag, a provider of quality flagpoles, flags and more for over 30 years, announced today that it has released the new Flag Luma-Disc™ flagpole light. The Flag Luma-Disc is a disc-shaped outdoor light that sits atop a flag pole, illuminating the flag with 1600 lumens of bright light. Energy efficient, the Flag Luma-Disc can also serve as a property security light.

"If you're proud of your flag, light it up!" said [spokesperson]. "That's what you can do with the Flag Luma-Disc, but you also get security - all at a low energy cost."

The Flag Luma-Disc uses about one eighth the energy of a traditional flagpole light. It achieves this efficiency using 12 CREE LEDs. The LEDs provide an estimated 50,000 lifespan of lighting. Warm and cool color options are available. A photo cell is able to switch the light on and off. The product comes with a 5 year warranty. It is compatible with flagpoles between 15 and 30 feet. The Flag Luma-Disc is made in the USA.
