?I enjoyed working with Kamini so much! She really helped me better understand what was important to me and how to use my time in a way that reflects my priorities. In areas of my life where I was feeling stuck, Kamini guided me through solutions to keep me moving even if it was through small steps at first leading to much bigger steps. I felt like I could talk with Kamini about anything and she would always have productive and practical advice. She is very comfortable talking about big-picture topics, as well as getting into the details of various parts of my life. She helped me to not worry about things that haven't happened yet, be overly concerned with what other people think, be afraid of things that aren't even real, or put any false limits on my potential growth. And what's more, the experience was really fun! I highly recommend Kamini to anyone looking to benefit from having an expert life coach!?
