

Somerville Orthodontics: Creating Healthy Smiles for a Stronger Community

May 22, 2024

May 22, 2024 -
Somerville Orthodontics, a leading orthodontic practice in Somerville, MA, has announced its dedicated effort towards fostering healthy smiles to strengthen the local community. Under the guidance of Dr. Moonyoung Lee, a board-certified orthodontist renowned for his enthusiasm for cutting-edge technology, education, and active community engagement, the clinic provides an extensive selection of orthodontic treatments. The offerings include options like Invisalign, Stride Braces, as well as tailored treatments for both children and adults, not to forget the unique Smile Touch-Up service designed to meet individual patient goals and requirements.

This orthodontic establishment takes pride in its adoption of the latest dental technologies to guarantee both efficient and effective treatment outcomes. The provision of Orthodontics in Sommerville is a primary service, designed to meet the diverse needs of the community by offering inclusive care that addresses patients at any stage of life. Whether it?s aiding the development of a child's jaw or rectifying alignment issues in adults, Somerville Orthodontics guarantees care that is not just efficient but also delivered with immense compassion and understanding.

In its endeavor to service a wide array of orthodontic needs, Somerville Orthodontics is also a prominent provider of Invisalign in Sommerville. This treatment, celebrated for its discreetness and comfort, is particularly appealing to teenagers and adults who prefer a more inconspicuous alternative to traditional metal braces. The custom aligners are designed to steadily move teeth into the desired position, presenting an effective solution without the visibility of metal braces.

For individuals in need of more conventional orthodontic treatments, the clinic offers Braces in Sommerville. Through the Stride Braces system, patients are presented with a reliable and proven method for addressing various dental concerns, such as overcrowding, gaps, and bite issues. Stride Braces bring a modern twist to the traditional braces approach, aiming to reduce discomfort while enhancing treatment results.

Understanding that the foundation of a robust community is the health of its members, Somerville Orthodontics goes beyond dental treatments to focus on patient education. The clinic provides resources to empower individuals with the knowledge to maintain top oral health. The availability of emergency care and a range of financing options showcases the clinic?s commitment to accessible, patient-focused care.

Dr. Moonyoung Lee comments on the initiative, "At Somerville Orthodontics, our mission expands past merely straightening teeth. We are committed to uplifting the lives of our patients through comprehensive, technologically advanced orthodontic care. By enhancing smiles, we bolster individual confidence and hence, the strength of our community."

Furthermore, Somerville Orthodontics has put in place stringent COVID-19 safety protocols, ensuring the protection and well-being of both patients and staff. This action mirrors the clinic's overall commitment to the welfare of those it serves.

"Every smile we shape at Somerville Orthodontics tells a story of transformation and positivity. Our engagement with the community steers our decisions, from the types of treatments we offer to the safety measures we uphold," Dr. Lee further added. "As we proceed to serve the Somerville area and its environs, we remain unwavering in our mission to be a pillar of health, confidence, and joy through our orthodontic services."

For individuals interested in learning more about the orthodontic treatments available at Somerville Orthodontics or to book a Smile Assessment, they are encouraged to visit the clinic?s website or directly get in touch with their team.
