

PSI Conversion Unveils Cutting-Edge Aftermarket Engine Harnesses and Conversion Parts for LS Swap Enthusiasts

May 13, 2024

May 13, 2024 - PRESSADVANTAGE -

PSI Conversion, a renowned leader in the field of manufacturing and retailing aftermarket engine harnesses and conversion parts, proudly announces the launch of its latest product innovations. These new offerings are meticulously designed for those engaged in LS Swap projects, involving GM Gen II, III, IV, & V LS/LT-based engines and transmissions. As a trailblazer in the automotive industry, PSI Conversion continues to elevate the standard for quality and customization, ensuring that every product meets the high expectations of its clientele.

The company's expansion in product offerings now includes an array of state-of-the-art wiring harnesses specifically for LT1/LT4 Gen II, LS/Vortec Gen III and IV, and LT1/L83/L86 Gen V engines. Furthermore, PSI Conversion has enhanced its portfolio with comprehensive engine controller kits designed for Gen III 24X, Gen IV 58X, and Gen V LT1/L83/L86 engines. These additions are complemented by advanced Powertrain Control Modules (PCMs), tuning solutions, and an assortment of accessories that cater to the detailed needs of automotive professionals and hobbyists alike.

"At PSI Conversion, we are committed not just to meeting but consistently exceeding the specific needs of our customers," stated the CEO of PSI Conversion. "Our latest offerings underscore our dedication to delivering high-quality, durable, and performance-driven products that our customers have come to expect from us. We are excited about the potential these products have to transform the automotive modification landscape."

Quality is at the heart of PSI Conversion's commitment. Each product is crafted using premier materials, including Brand New GM Delphi Connectors and TXL High-Temperature Wire, ensuring durability and reliability. This commitment guarantees that every harness and conversion kit not only withstands the demands of high-performance use but also excels under extreme conditions.

Moreover, these innovations are not solely about technical excellence; they also focus on enhancing the customer experience. PSI Conversion specializes in creating tailored solutions that fit perfectly with specific vehicle models. This bespoke approach eliminates the need for any engine alterations, simplifying the installation process, and enhancing the vehicle's performance without compromising on efficiency.

"Our products are designed with the end-user in mind. Each solution we provide aims to enhance the capabilities of their vehicle concerning efficiency, performance, and reliability," added the Technical Support Manager of PSI Conversion. "With decades of experience, our team is fully committed to supporting our customers through every step of their engine conversion journey, ensuring they achieve their automotive goals with our products."

The new range of products is now readily available and poised to meet the needs of both seasoned professionals and passionate amateurs. With a sterling reputation for excellence and a robust commitment to customer satisfaction, PSI Conversion remains the premier choice for high-quality aftermarket engine harnesses and conversion parts within the automotive sector.

About PSI Conversion

Based in Brick, NJ, PSI Conversion boasts more than 25 years of collective experience in EFI conversions, harness manufacturing, and general vehicle modification. The company takes pride in its American-made products, which highlight the best materials and craftsmanship available. PSI Conversion is dedicated to providing tailored solutions and exceptional customer service, ensuring that every project is successful and every customer is satisfied.
