

Baney Construction Urges Immediate Action for Hail Damage Claims in Rockford

June 07, 2024

June 07, 2024 - PRESSADVANTAGE -

Baney Construction & Restoration, Inc. is making it known to homeowners in Rockford, Illinois, about the critical need to act swiftly in filing hail damage claims following the spring and summer hailstorms of 2023. The company underscores the importance of thoroughly reviewing insurance policies and promptly submitting any outstanding claims. The storms, which occurred on May 31, June 29, July 26, July 29, August 12, and August 17, inflicted considerable damage on numerous homes in the Rockford area.

Insurance policies for homeowners usually set a deadline for filing claims for hail damage—usually one year from the storm's occurrence. With the approach of the storm season in 2024, the opportunity for filing claims from last year's storms is quickly closing. Baney Construction advises homeowners to check their insurance policies for the claim submission deadline to ensure they don't miss their chance due to the deadline's lapse.

The damage from hailstorms can be extensive, especially to roofs and sidings. Neglecting these damages can lead to more severe problems, exacerbating during future storms. Timely filed claims can secure funding for repairs, thus mitigating expenses for previously unforeseen restorations.

Identified as a reputable Local Rockford Roofing Company, Baney Construction extends its services to aid homeowners in navigating the insurance claims process from start to finish. The company is committed to offering complete support, beginning with initial damage assessments and concluding with the execution of repairs, ensuring compliance with insurance requirements and assisting in restoring homes to their pre-storm condition.

Baney Construction & Restoration takes pride in its commitment to quality service and customer satisfaction, solidifying its position as a front-runner in the roofing and restoration industry in both Rockford and Rockton. The company pledges to maintain sustainable practices and exceptional craftsmanship across its projects, assuring client satisfaction through superior service standards.

The urgency to file hail damage claims from the 2023 hailstorms is more pressing than ever. Baney Construction is urging property owners to reach out for a complimentary roof inspection. Leverage Baney's in-depth experience with insurance restoration to simplify the claims process, enabling homeowners to gain the necessary assistance and financial compensation for the repairs and safeguarding of their properties.

For further details on Baney Construction and its array of services, interested parties are encouraged to visit the company's official website.
