

# Medisupps.com Announces New Videos for 2016

*December 30, 2015*

December 30, 2015 - PRESSADVANTAGE -

Medisupps.com is excited to announce that they've got a new series of videos planned for 2016. Due to overwhelming feedback, they will release a new collection of instructional videos on YouTube to help people with Medicare and Medicare supplement plans.

Medisupps was launched in 2009 and continues to offer personalized Medicare supplement insurance assistance. Seniors in 38 states can utilize Medisupps, and Medisupps recently became licensed for Florida.

In Spring 2014, Medisupps launched their YouTube channel. Since that time, they've incurred a growing following.

"The videos have been a huge success and the response has been amazing. We break down a very complex subject into easy-to-understand videos in about 5 minutes. Our clients love them and there are many more Medicare topics that we need to cover to help educate people," said founder Russel Noga.
