Houston's Hard Money Lending Leader Expands Mortgage Options to Support More Builders and Investors

May 15, 2024

Houston, Texas - May 15, 2024 -
Capital for Real Estate, Inc, a leader in hard money lending in Houston, proudly announces its enhanced range of flexible mortgage solutions tailored for home builders, real estate developers, fix and flippers, real estate investors, and commercial property owners. These innovative solutions are designed to help professionals navigate financial constraints and accelerate their project timelines without the typical limitations imposed by traditional banking systems.

In the dynamic world of real estate development, securing adequate financing can be a significant hurdle, particularly for projects that do not meet the strict criteria of traditional financial institutions. Capital for Real Estate specializes in providing off-balance-sheet financing, which is crucial for clients who are at their borrowing limits with conventional banks. This approach allows for greater flexibility and the ability to pursue additional projects without impacting credit scores.

A recent success story involves a local builder who was at the maximum borrowing capacity with traditional banks. By turning to Capital for Real Estate, they received the necessary funding through a non-traditional

path that did not affect their existing financial relationships. This strategic financial solution enabled the builder to not only preserve their current capital lines but also to expand their business operations by taking on additional construction projects.

Moreover, Capital for Real Estate is committed to supporting fix and flippers through its unique lending programs. One such program offers up to 90% loan-to-cost (LTC) financing for property rehabilitations. This exceptional offering ensures that rehabbers retain more capital in-hand, allowing them to leverage additional deals swiftly, thereby growing their business and enhancing their impact in the real estate market.

The company also introduces an unprecedented 100% LTC financing option, backed by hedge fund capital, for select high-potential projects. This program is designed for seasoned investors and developers who require substantial funding to kickstart or complete their projects without the usual capital constraints.

"Our mission extends beyond mere financing. We strive to forge lasting partnerships with our clients by understanding their needs and providing them with the necessary tools to succeed," stated Alex, CEO of Capital for Real Estate. "Our enhanced lending solutions are specifically designed to address the unique challenges faced by today's real estate professionals. By offering more flexible, customized, and strategic financing options, we empower our clients to exceed their project goals and contribute positively to the economic landscape of Houston."

Capital for Real Estate's innovative approach is not only about offering diverse financial solutions but also about understanding the market dynamics and the specific needs of each client. This client-centric approach ensures that every financial package we offer is thoughtfully structured to maximize the potential for client success and project viability.

As Houston continues to experience growth in real estate development, Capital for Real Estate is poised to remain a key player in supporting this development through strategic financial solutions. Their commitment to innovation in hard money lending in Houston is unwavering, and they continue to adapt their services to meet the evolving needs of their clients.
