

Construction Lawyers Brisbane: The Trusted Legal Partner for Construction Matters

May 14, 2024

BRISBANE, QLD - May 14, 2024 - PRESSADVANTAGE -

Legally qualified construction consultants have a bigger role to play in construction projects than passive counsel. Construction Lawyers Brisbane believes in acting as trusted strategic advisors to its clients and thinking creatively to meet the project's commercial objectives. Thankfully, the firm has the experience required to do just that. Many of its partners are highly regarded as Engineers, Planners and Quantity Surveyors. With over 30 years of industry experience, the firm stands out through its unique combination of multiple qualifications in the construction field.

The team's expertise spans Design Engineering, Project Management, Project Controls, Scheduling, Quantity Surveying, and the Law, enabling them to offer comprehensive solutions tailored to the unique needs of each project. Whether dealing with infrastructure, electrical, process plants, mining, or office buildings, its multidisciplinary approach ensures that clients receive professional and insightful advice that addresses the nuances of each sector.

Here's what the firm's clients have to say:

Armond Habibi, General Counsel: "They had a building full of lawyers against a small group which Albert led on our behalf. His design and construction background were essential in determining the failures of the builder in managing the design and proving that the Authority was not responsible for the alleged delays. The multi-billion dollar claim quickly evaporated."

Prabu Prambanan: "We were involved in a bitter arbitration dispute in Dubai. Albert took the lead, developed and submitted a fully substantiated claim which led to our success on the matter. The difference in the submissions was evident, Albert's legal submissions were prepared with the technical and construction know-how that the lawyers on the other side did not have. The fact that he is RICS certified meant that his costs submissions were accepted by the arbitrator as expert submissions. We could have lost our company without him."

Maria Coulter: "Working with Albert was a game-changer. We faced a challenging case against QBCC, which we took to the QCAT. Albert's professional, thorough, and personable approach made all the difference. He was always responsive, ensuring I understood every aspect of our legal strategy, and his determination never wavered. Thanks to his efforts, we achieved a fantastic outcome. His blend of old-school ethics and humour brought light to the process, earning him a perfect 10 in my book. I am beyond grateful for his dedication and highly recommend his services."

Dr. Murali Venkatraman, PhD, shared his experience: "Working overseas in KSA, I felt overwhelmed managing the dispute from afar. On a trusted recommendation, I hired Albert from Construction Lawyers Brisbane. His expertise as an engineer-lawyer was pivotal. Albert assumed the lead, engaging with all parties involved, and kept me regularly updated across time zones not minding the weekend / day-night differences. He fought the legal battle on our behalf and more importantly assumed the lead on the ground thus facilitating the whole process and calming my nerves. He skillfully navigated the legal and technical discussions, which led to a favourable resolution of my case. Albert's dedication went beyond the call of duty, ensuring our success with a personal touch that truly sets him apart. I wholeheartedly recommend his services without any reservations."

As a multifaceted firm, Construction Lawyer Brisbane offers a comprehensive suite of services, including Contract Reviews and Contract Analysis, Dispute Management, Claims for Delay, Contract Management and Financial Recovery, Project Development Strategies and Insurance Claims. Their unique approach ensures that aspects of construction law are managed with the utmost competence and precision.

The firm prides itself on its proactive approach to dispute resolution, promoting early settlements to reduce the duration and cost of disputes while positioning clients in the strongest possible negotiating position. This

client- philosophy has garnered trust and a strong reputation among its clientele, reflected in its numerous successful case resolutions and consistent client referrals.

As the firm continues to champion excellence in the construction sector, its profound impact is evident in its comprehensive service offerings and the trust it garners from its clients. The firm not only resolves legal issues with unmatched expertise but also fosters a culture of integrity and foresight in all its engagements. With a steadfast commitment to client success and industry advancement, Construction Lawyers Brisbane remains a pivotal player, providing better outcomes and more sustainable practices. Their ongoing success and client loyalty speak volumes about their role as a fundamental pillar in the construction industry.
