

Go Industries Inc. Unveils New Heavy-Duty Headache Racks to Enhance Truck Utility and Protection

May 21, 2024

Richardson, TX - May 21, 2024 -

Go Industries Inc., renowned for its robust truck accessories and specialized manufacturing services, has proudly announced the unveiling of its innovative line of heavy-duty headache racks. These racks are meticulously engineered to deliver unmatched protection and utility for all full-size pickup trucks, ensuring vehicle rear windows are safeguarded while elevating the vehicle's functionality.

Manufactured within the United States, these headache racks are the embodiment of Go Industries' pledge to excellence and customer fulfillment. Demonstrating formidable construction, each rack utilizes a 6" x 2" steel top tube alongside 2" x 2" steel for both the bottom and vertical tubes, affording substantial strength and shield against impacts. Stability is further enhanced by a substantial 24" x 3" foot, and the incorporation of sizeable 3/16" louvers offers vital protection for the cab window from the dangers of shifting loads. Importantly, equipped with LED lights in red and clear?optionally including a third brake light?these racks not only improve the truck's aesthetics but significantly enhance visibility and safety during travel.

A standout feature of Go Industries' headache racks lies in their user-friendly installation process. With no need for cutting or drilling, truck owners can easily mount these racks, saving both time and effort. An exceptionally designed tilt body allows the rack to pivot forward, facilitating unimpeded access to the truck's hood for maintenance purposes, without necessitating rack removal.

Available in both white and black powder coat finishes, these headache racks enable owners to personalize their trucks while optimizing utility and style. Go Industries furthers this customization by allowing customers to specify the year, make, and model of their truck, guaranteeing an ideal fit. Priced between $740.61 and $909.26, these racks are accompanied by a three-year warranty on materials and craftsmanship, as well as a six-month finish warranty, highlighting Go Industries' unwavering dedication to product quality and customer satisfaction.

A spokesperson for Go Industries expressed excitement over the launch, stating, "We are thrilled to introduce our new line of heavy-duty headache racks, designed to meet the practical needs of our customers while ensuring their trucks are equipped with the best protection available. Our commitment to quality and innovation is reflected in these racks, providing truck owners with a durable, reliable solution for their vehicles. With our latest product, we continue to uphold our reputation as a leading provider of truck accessories and custom manufacturing services."

Individuals seeking to upgrade their truck's functionality and safeguarding can peruse the vast selection of truck accessories offered by Go Industries, including these heavy-duty headache racks, by visiting the company's website. Established in 1978, Go Industries remains steadfast in its commitment to addressing the needs of truck owners, law enforcement branches, and entities in need of bespoke manufacturing solutions, solidifying its status as a vanguard in the industry.
