

Buck Bros Unveils Cutting-Edge Commercial Asphalt Solutions for Businesses Across Northwest Ohio

May 23, 2024

Toledo, Ohio - May 23, 2024 -
Toledo, OH - Buck Bros Asphalt Paving & Concrete, a leading provider of commercial asphalt services, has announced the expansion of their offerings to better serve businesses throughout Northwest Ohio. With a focus on delivering durable, efficient, and high-quality asphalt solutions tailored to each client's unique needs, Buck Bros is positioned to revolutionize the way companies approach their parking lot and pavement maintenance.

Commercial asphalt projects play a crucial role in the success of businesses across various industries, from retail stores and restaurants to office buildings, schools, hospitals, warehouses, and manufacturing plants. A well-maintained parking lot not only ensures the safety and convenience of customers, employees, and visitors but also contributes to the overall aesthetic appeal of a business's premises.

"At Buck Bros, we understand that every business has its own set of challenges and requirements when it comes to their asphalt surfaces," said Chad Buck, President of Buck Bros Asphalt Paving & Concrete.

"That's why we've developed a comprehensive range of commercial asphalt services designed to meet the specific needs of each industry we serve."

Buck Bros' commercial asphalt services include asphalt parking lot removal and replacement, overlays, extensions, new installations, mill and overlay, and repairs. The company's team of experienced professionals utilizes state-of-the-art equipment and techniques to ensure that each project is completed efficiently, with minimal disruption to the client's operations.

One of the key advantages of working with Buck Bros is their commitment to using environmentally-friendly practices, such as recycling asphalt and concrete materials during the removal and replacement process. This approach not only reduces waste but also helps to minimize the overall cost of the project for the client.

In addition to their installation and repair services, Buck Bros emphasizes the importance of regular maintenance to extend the life of commercial asphalt surfaces. By addressing issues such as potholes, cracks, and erosion promptly, businesses can avoid more extensive and costly repairs down the line.

"Regular repair and maintenance are crucial for the longevity and performance of commercial asphalt surfaces," explained Chad Buck. "Our team works closely with each client to develop a customized maintenance plan that fits their budget and ensures their parking lot remains in top condition for years to come."

The benefits of well-maintained commercial asphalt extend beyond just the appearance and functionality of the surface. A safe and attractive parking lot can help to enhance a business's reputation, attract and retain customers, and even improve employee morale. Furthermore, by investing in regular maintenance, companies can reduce their liability risks associated with accidents or injuries caused by deteriorating asphalt conditions.

As a fourth-generation, family-owned business with over 75 years of experience serving the Toledo, Ohio area, Buck Bros has built a reputation for exceptional craftsmanship and outstanding customer service. The company's expertise and commitment to quality have earned them recognition as one of the Top 100 seal-coating companies in the USA by Pavement Magazine in 2002 and 2003.

"We take great pride in our work and the relationships we've built with our clients over the years," said Chad Buck. "Our goal is to be the go-to choice for commercial asphalt services in Northwest Ohio, and we're constantly innovating and adapting to meet the evolving needs of the businesses we serve."

With their expanded commercial asphalt offerings and dedication to delivering tailored solutions for each industry, Buck Bros Asphalt Paving & Concrete is poised to help businesses throughout Northwest Ohio

enhance the safety, durability, and appeal of their parking lots and pavement surfaces.
