Home Instead New Forest Introduces New Live-in Care Services to Enhance In-Home Support

May 30, 2024

May 30, 2024 -
Home Instead New Forest, a trusted provider of in-home care services, has recently expanded its services to include live-in care. This development aims to amplify the support offered to residents of the New Forest area, encompassing towns like Lymington, Brockenhurst, Milford on Sea, Hordle, and Boldre. The goal of these services is to cater to the growing demand for personalised, empathetic care that allows individuals to remain in the comfort and familiarity of their own homes, despite health challenges or the natural process of ageing.

This introduction of live-in care services addresses an evident need in the community for continuous, comprehensive support that goes beyond what traditional home visitation models offer. Home Instead New Forest crafts these services to align meticulously with the unique needs of each client. This encompasses a wide array of assistance types, including companionship, shopping and errand help, diabetes and mobility support, meal preparation, transportation to medical appointments, medication management, fall prevention, and general household task aid. By implementing a bespoke care plan, Home Instead New Forest ensures that each client?s specific needs are met, allowing them to live satisfying lives at home.

Opting for live-in care presents a significant alternative to residential care, offering clients independence and comfort, thereby potentially enhancing their overall quality of life. Home Instead New Forest?s dedication to delivering compassionate, high-quality care has been recognised through its ?Good? rating from the Care Quality Commission (CQC) and is further evidenced by its 9.4 rating on homecare.co.uk and six 5-star reviews on Google.

In a sector where trust and dependability are of utmost importance, Home Instead New Forest distinguishes itself through its unwavering commitment to client satisfaction and wellbeing. The expansion into live-in care services underlines the company?s adaptability and dedication to addressing the community?s evolving needs.

Tim Oswald, spokesperson for Home Instead New Forest, provided insight into the motivations behind broadening their service scope. "With an understanding of the increasing demand for comprehensive, empathetic care that enriches our clients' quality of life, we saw the introduction of our live-in care services as imperative. This initiative not only meets our clients' desires to stay in their homes but also gives their families peace of mind, knowing their loved ones are in skilled and compassionate hands," Oswald commented.

The company prides itself on offering immediate services with minimal waiting times, ensuring that clients swiftly receive the care they need. Implementing live-in care services marks a significant milestone in Home Instead New Forest?s mission to enhance the lives of the elderly and those requiring specialised care within the community.

Oswald further discussed the impact of this new service offering. "By introducing live-in care, we can strengthen our commitment to the community, offering support that truly changes our clients' and their families? lives for the better. We are devoted to upholding the high standards of care and support that Home Instead New Forest is celebrated for, now combined with the extended capability to provide live-in care services," he elaborated.
