Watkins Heating & Cooling Celebrates Winning the Prestigious Trane Dealer Award for Exceptional Service

June 03, 2024

DAYTON, OH - June 03, 2024 -

Watkins Heating & Cooling, a renowned HVAC contractor in Dayton, Ohio, has yet again distinguished itself in the industry by securing the esteemed 2023 Trane SOAR award. This marks the third occasion the company has been distinguished with this honor, solidifying its dominance in the Miami Valley ever since it began independently dealing in Trane products in 1993. The SOAR award is a recognition of Watkins Heating & Cooling's impressive sales volume, its unwavering dedication to offering high-efficiency products, and the superior financing options it avails to its clientele. Moreover, this accolade emphasizes the company?s designation as a Trane Comfort Specialist, a title it wears proudly, indicating exceptional customer service and negligible warranty claims.

Trane, acknowledged globally for its leadership in providing air conditioning systems, furnaces, and comprehensive HVAC solutions, awards the SOAR accolade to dealers who not only exhibit remarkable performance but are also committed to maintaining Trane?s stringent standards for quality and durability. The attainment of the SOAR award by Watkins Heating & Cooling highlights their dedication to delivering superior products and services. Among these offerings are Trane?s highly regarded heat pumps, air conditioning units, and furnaces, celebrated for their robustness, energy efficiency, and cutting-edge

technology, all designed to elevate indoor comfort and air quality.

David Watkins, speaking on behalf of Watkins Heating & Cooling, shared his enthusiasm about the acknowledgment, stating, "We are deeply honored to receive the Trane SOAR award for the third time. This achievement underscores our team's unwavering dedication to quality, efficiency, and superior customer service. It's a testament to our commitment to not only meet but exceed the expectations of our customers by providing them with the best HVAC solutions available on the market. As a Trane Comfort Specialist, we take great pride in offering high-efficiency products that align with our goals for sustainability and cost-saving for our customers."

The company?s strategy extends beyond mere sales, aiming instead to provide comprehensive solutions tailored to the unique needs of their customers. Through careful installations, timely maintenance, or prompt repair services, Watkins Heating & Cooling ensures that residents and businesses in Dayton and the neighboring areas enjoy optimal air quality and comfort throughout the year.

Moreover, Watkins Heating & Cooling underscores the importance of customer education, helping homeowners to comprehend the advantages of high-efficiency HVAC systems and their role in diminishing utility bills and mitigating environmental impact. For those interested in learning more about Watkins Heating & Cooling's offerings, including their repair, replacement, and maintenance services, as well as their wide range of products such as Trane HVAC equipment, ductless mini-split heat pumps, and indoor air quality products, please visit their website for detailed information.

David Watkins further added, "Winning the Trane SOAR award is not only a milestone for our company but also a motivator to continue innovating and improving the way we serve our community. We understand the significance of reliability, efficiency, and affordability in HVAC solutions, and as a Trane Comfort Specialist, we are adept at meeting those requirements with excellence. We are excited to keep providing our community with the high standard of service that this award represents."

Earning commendation from a premier entity like Trane reasserts Watkins Heating & Cooling as a reliable and adept HVAC contractor in Dayton, Ohio. Looking ahead, the company remains steadfast in its commitment to maintaining the lofty standards that facilitated their SOAR award triumph, ensuring their clientele has access to the most dependable, efficient, and eco-friendly heating and cooling options available.
