

Rockero Releases Premium DIY Guitar Pick Punch

January 05, 2016

January 05, 2016 - PRESSADVANTAGE -

The team at Rockero is pleased to announce the official launch of their latest product, the Rockero DIY Guitar Pick Punch. The all-new guitar tool is now available exclusively on Amazon.

Rockero is a premium designer and distributor of high quality guitar accessories, and the team is proud to offer their top-notch products exclusively through Amazon. By offering their newly launched DIY Guitar Pick Punch on Amazon, Rockero makes it easy for customers everywhere to safely order the product with the assurance of both Rockero and Amazon customer care.

The DIY Guitar Pick Punch from Rockero is constructed from high-quality materials that is designed to pierce through materials up to 1mm thick. The punch features a durable rubber bottom boot that prevents tabletops and countertops from being scratched, and the boot also limits unwanted slippage that could otherwise occur during the punching process.

The Rockero DIY Guitar Pick Punch is easy to use, offering a streamlined design that makes it simple for guitar enthusiasts to make picks from old credit cards, gift cards, or any other piece of thin plastic. As a plus, the punch lets users make guitar picks on the go.

When customers purchase the DIY Guitar Pick Punch, they will receive the punch and 4 free pick sheets. With the pick sheets, users can create 16 custom picks. In addition, customers will receive a pick holder with their purchase.

According to the Rockero team, their new punch helps people save money while helping them create unique, crafty guitar picks. Guitar enthusiasts can easily transform recycled materials into usable guitar picks quickly with the new punch.

Amazon Prime members receive free 2-day shipping with their purchase. All customers receive world-class customer support from both Amazon and Rockero. More information about the DIY Guitar Pick Punch can be found at <http://www.amazon.com/DIY-Guitar-Pick-Punch-Guitarist/dp/B0190790YK>.
