

## **1-800 Office Solutions Expands to Tampa and Wyoming with Comprehensive Managed IT and Security Services**

*July 02, 2024*

July 02, 2024 - PRESSADVANTAGE -

1-800 Office Solutions is announcing the expansion of its services to Tampa and Wyoming. This includes Managed IT Services and Managed Security Services. The company's goal is to provide high-quality office equipment and tech support, helping businesses run smoothly and efficiently.

The Managed IT Services offered by 1-800 Office Solutions include IT consulting, IT strategy, PC and Mac support, server and networking solutions, as well as backup and disaster recovery. These services are designed for businesses of all sizes, providing strong network solutions tailored to specific needs. The team works hard to ensure a smooth experience, focusing on minimizing disruptions and keeping business operations running smoothly.

In addition to Managed IT Services, the company now provides Managed Security Services. These services cover compliance management, threat management, vulnerability management, and computer forensics. The security team is committed to protecting client data and maintaining network integrity. This proactive

approach helps businesses stay ahead of cyber threats, allowing them to focus on growth.

Elie, the CEO of 1-800 Office Solutions, shared his positive outlook on the expanded services: "We are excited to bring our Managed IT and Managed Security Services to businesses in Tampa and Wyoming. Our goal is to provide comprehensive technology solutions that help our clients operate efficiently and securely. We understand the critical importance of safeguarding business data and are dedicated to offering top-tier security services."

Besides its IT and security services, the company continues to offer Copier and Printer Repair Services. This includes addressing issues like paper jams, software malfunctions, and image quality problems. The repair team also provides on-site emergency repair, preventive maintenance, software updates, and parts replacement. They aim to keep office equipment in top condition, reducing downtime for businesses.

1-800 Office Solutions also serves clients in all 50 states. They offer equipment leasing services, enabling businesses to lease printers, copiers, business phones, devices, accessories, and scanners. There are copier lease options to suit businesses looking for flexible and affordable office solutions.

The company's cloud solutions help businesses cut costs and focus on their core activities. These include document management, managed print services, advanced capture technology, and scanning services. These modern tech tools can boost productivity by streamlining workflow and managing content effectively.

Moreover, 1-800 Office Solutions offers Digital Transformation Software. This includes automation services such as Microsoft Office 365, server colocation, SharePoint, virtual server/hosting, and virtual private network solutions. These services aim to simplify business processes, making them more efficient and less time-consuming.

The company's repair services ensure clients have reliable support for malfunctioning office equipment. They offer solutions for various printer error codes, specialized services like HP plotter repair, DesignJet plotter repair, and general copier and printer repair services. Elie remarked on these services: "Maintaining the functionality of office equipment is crucial for productivity. Our repair services are designed to be responsive and effective, ensuring minimal disruption to our clients' operations."

Businesses interested in obtaining quotes can get customized pricing for business phone systems, large format printers, managed IT services, and copier/printer leases. These quotes are tailored to match the specific needs and budgets of different businesses, providing a clear and straightforward way to secure the necessary office and tech solutions.

By expanding its Managed IT Services and Managed Security Services to new locations, 1-800 Office

Solutions aims to help more businesses achieve their operational goals. With its range of services, the company is well-equipped to meet the evolving needs of businesses across the country.
