

# Auxilion Named Managed Services Provider of the Year at 2024 Tech Excellence Awards

*June 25, 2024*

Dublin, IE - June 25, 2024 -
Auxilion, an IT services provider from Ireland, has been awarded Company of the Year at the 2024 Tech Excellence Awards. This recognition highlights the company?s skills in providing technology solutions that bring real business benefits to clients.

Philip Maguire, the CEO of Auxilion, expressed his pride in receiving the award, attributing it to the company's efforts in digital transformation and innovation. "We are honored to be recognized as the Managed Services Company of the Year," said Maguire. "This award is a testament to the hard work and dedication of our team in helping businesses navigate their digital transformation journeys."

Auxilion offers a variety of services in strategic consulting, business and technology solutions, and managed IT services. Their aim is to provide customized consulting and managed IT services that support the distinct goals of each business they work with. Their services include ICT strategy development and modern workplace solutions.

To improve its offerings, Auxilion has made notable investments in its managed services capabilities. Recently, the company poured ?1.5 million into its Managed Services Continuous Improvement Programme (MSCIP) and an additional £4 million into its Managed Services Centre of Excellence. These investments are part of Auxilion's growth in the UK market and show its commitment to constant improvement and innovation in managed services.

Peter Hopwood, a senior team member at Auxilion, spoke about this achievement: "Our recent investments highlight our commitment to providing top-tier managed services to our clients. Winning this award reinforces our position as a leader in the IT services sector."

Auxilion's strategic consulting and transformation services assist businesses in managing the complexities of digital change. They offer governance and compliance services to meet regulatory standards and improve operations and customer experiences. Their business process optimization services aim to enhance efficiency, ensuring that businesses get the most out of their IT investments.

Additionally, Auxilion has a full range of business and technology solutions. Their cloud technology services help businesses take advantage of the cloud's scalability and flexibility. Hybrid infrastructure solutions serve businesses that need both on-site and cloud-based systems. For security and networking, Auxilion offers solutions to protect data and ensure strong network functionality. Their backup and disaster recovery services guarantee that businesses can continue operating during emergencies. They also provide Microsoft solutions and modern workplace solutions to help businesses adopt digital, flexible, and collaborative environments.

Auxilion?s managed IT services include ICT systems monitoring, maintenance, and support, providing businesses with the resources they need when they need them. Their flexible resourcing service helps companies meet changing IT demands, and their vendor selection and management services assist businesses in choosing and managing the right IT vendors.

Being named the Managed Services Company of the Year highlights Auxilion's dedication to delivering innovative technologies that meet the needs of businesses today. Their wide range of services, combined with recent significant investments, position Auxilion as a key player in helping businesses achieve their digital transformation goals.
