Lammon Bros Products Streamlines Construction Projects with Reliable Stone Delivery Services

June 14, 2024

Delta, Ohio - June 14, 2024 -
Delta, OH - Lammon Bros Products, a leading provider of landscaping and construction services in Northwest Ohio and Southeast Michigan, is revolutionizing the construction industry with its efficient and reliable stone delivery services. With a commitment to quality, timely delivery, and customer satisfaction, Lammon Bros Products is helping contractors and project managers streamline their operations and ensure the smooth progression of their construction projects.

Stone is a crucial component in various construction applications, including foundations, drainage systems, landscaping, and road construction. The timely and consistent supply of high-quality stone is essential for the success of these projects, as delays or inconsistencies in material availability can lead to significant setbacks and increased costs. Lammon Bros Products recognizes the importance of reliable stone delivery and has invested in a robust infrastructure and experienced team to meet the growing demand for this essential service.

Construction professionals, including contractors, builders, and landscapers, rely on dependable stone delivery to keep their projects on schedule and within budget. According to the U.S. Census Bureau, construction spending in the United States reached $1.52 trillion in 2020, with the demand for construction materials, including stone, expected to grow as the industry continues to recover from the impact of the COVID-19 pandemic. Lammon Bros Products is well-positioned to support this growth, with its extensive resources and commitment to exceptional service.

"At Lammon Bros Products, we understand that the success of a construction project often hinges on the timely delivery of quality materials," said Jim Lammon, co-founder of Lammon Bros Products. "Our stone delivery services are designed to provide our customers with the reliability and efficiency they need to keep their projects moving forward, without the hassle of managing material logistics themselves."

Lammon Bros Products offers a wide range of stone products, including gravel, crushed stone, and rip-rap, suitable for various construction applications. The company sources its stone from trusted suppliers, ensuring consistent quality and adherence to industry standards. With a fleet of 11 trucks, including straight dump trucks and semis, Lammon Bros Products has the capacity to handle both large-scale and smaller projects, delivering stone directly to construction sites throughout Northwest Ohio and Southeast Michigan.

In addition to its stone delivery services, Lammon Bros Products operates an EPA-certified yard waste recycling facility, where it transforms yard waste from local residents into eco-friendly products like mulch and topsoil. This commitment to sustainability and environmental stewardship sets Lammon Bros Products apart from its competitors and underscores the company's dedication to serving the community responsibly.

The benefits of reliable stone delivery extend beyond the construction industry itself. By enabling the efficient completion of construction projects, Lammon Bros Products contributes to the development of critical infrastructure, the creation of jobs, and the overall economic growth of the region. Furthermore, by providing easy access to high-quality stone products, the company empowers homeowners and DIY enthusiasts to undertake their own landscaping and home improvement projects, fostering a sense of community pride and investment.

"Our goal is not only to support the construction industry but also to contribute to the well-being and prosperity of the communities we serve," added Lammon. "By delivering quality stone products and providing exceptional service, we aim to help build a stronger, more vibrant region for everyone."

As Lammon Bros Products continues to expand its stone delivery services, the company remains committed to its core values of quality, reliability, and customer satisfaction. By investing in state-of-the-art equipment, fostering a team of skilled professionals, and continuously improving its processes, Lammon Bros Products is poised to become the preferred stone delivery partner for construction projects throughout Northwest Ohio and Southeast Michigan.
