

## **Miami Concrete Restoration Company Is Contractor Of Choice For Public Schools**

*January 07, 2016*

January 07, 2016 - PRESSADVANTAGE -

Xtera Finishes, a business in Miami, FL, is proud to announce that they have been voted 'contractor of choice' for concrete restoration services in Miami-Dade County public schools. Their service has been described as the best in its class, and this has enabled the company to gain many more contracts for various schools. The company couldn't be prouder.

Robert Lopez from Xtera Finishes says: "Working with public schools really shows our commitment to quality and safety. Obviously, all our employees have had to have been police checked in order to work within school grounds, and this demonstrates that we are committed to only hiring the best people. Additionally, we take our responsibility very seriously. We want to make sure that the children in our communities can go to school safely."

Interestingly, the company has won public school contracts for a variety of other services as well. While their concrete restoration services are by far the most popular, they are also said to be the best painting contractors Miami has to offer. "Xtera Finishes works in skyscraper and mid ascent solid reclamation, painting, and waterproofing," adds Robert Lopez. "Our roots are in the business coatings industry and we

take awesome pride in having finished many painting tasks in South Florida and everywhere throughout the United States."

While they specialize in skyscrapers, the company is more than happy to offer their painting services to public schools as well. Many schools now span several floors and these certainly require specialized skills and knowledge in order to paint the exterior. Xtera Finishes is more than happy to take those types of jobs on.

The services offered by what is considered to be one of the most reliable concrete restoration contractors in Miami have been very positively received by their many clients. "Our school's playground was starting to disintegrate and the building itself was showing its age as well," says Harold D., caretaker of one of the Miami-Dade public schools. "Xtera came in and fixed and resolved all of the issues. Our school looks like new again and the children can once again enjoy their playground and building in a safe manner. I can't thank them enough."
