Northeast Discount Blind Company, based in Windsor Locks, CT, has recently opened a new location on 176 North Main Street in East Longmeadow, MA. The new window treatments store will enable them to provide the high quality service that they have been known to provide, to the East Longmeadow community.

Steve Booth from Northeast Discount Blind Company says: "Our new office is perfectly positioned for customers to come visit us in our showroom. Naturally, they can continue to shop online as they always have, but we know that people like to see and touch their blinds in real life before buying them. We now have two stores in Massachusetts and Connecticut and aim to continue to grow."

In the showroom of the new office, customers will be able to see a variety of window treatments that are in stock. These include Graber blinds and Bali blinds to name but a few. The company also helps people with their interior design needs in terms of their window treatments. They have a number of products in stock created by very respectable designers and they also have information on how to best combine these blinds with the existing interior decor.

"Our major blind suppliers truly are some of the best in the country, if not the world," points out Steve Booth. "They include industry greats such as Hunter Douglas, Graber, Kathy Ireland Home by Alta, Lafayette and Kirsch to name but a few. We are also very much willing in our stores to help our customers choose which blind will best go with their particular interior and personal needs in terms of light and temperature control."

The company has received numerous positive reviews for the work that they have completed over the years. They have worked with residential and commercial clients alike, ensuring people have total control over their privacy, light and heat, while also helping them to make sure their spaces look fantastic. The community has responded excitedly about the fact that they have now opened a showroom in East Longmeadow, and they have been flocking through their doors in droves.
