Cool Blew Inc. Expands Emergency AC Repair Services in Goodyear

July 17, 2024

Peoria, AZ - July 17, 2024 -
Cool Blew Inc. has announced the expansion of its emergency AC repair services in Goodyear, Arizona. Known for providing high-quality heating, ventilation, and air conditioning repair services, Cool Blew Inc. is addressing the growing demand for quick and reliable AC repairs in the area. The company has a strong reputation for ensuring household comfort and aims to meet the urgent needs of homeowners and businesses facing air conditioning problems.

Operations Manager Scott Proctor emphasized the need for dependable AC repair services, especially during the scorching Arizona summer months. "Our customers depend on us to deliver timely and effective solutions when their air conditioning units fail," said Proctor. "Expanding our emergency AC repair services in Goodyear will make sure that residents and businesses can get fast and professional AC repairs whenever they need them."

Founded in 2002, Cool Blew Inc. has consistently offered comprehensive HVAC solutions that include installation, maintenance, and repair services. Over the years, the company has expanded to include plumbing and solar services, making it a one-stop shop for essential home and business maintenance needs.

Adding emergency AC repair services in Goodyear aims to address the urgent situations that can arise when air conditioning systems break down unexpectedly, especially during peak usage times.

Besides emergency AC repair, Cool Blew Inc. also provides various other services. These include air conditioning installation, heating system repairs, plumbing services like water heater installation and drain cleaning, and solar energy solutions. For instance, the company provides solar panel installation services as well as solar attic fans and other renewable energy options. The company also offers service plans designed to extend the lifespan of HVAC units and improve energy efficiency. These service plans are particularly popular among customers who want to save on long-term energy costs.

Scott Proctor noted, "We strive to offer our clients a complete range of services that not only solve immediate issues but also contribute to long-term savings and sustainability. This comprehensive approach sets us apart from other service providers in the area."

The company's commitment to excellence is highlighted by its use of advanced technology and highly trained technicians. All technicians undergo extensive training to meet Cool Blew Inc.'s high standards for quality and customer service. The company is also a factory-authorized dealer for several respected brands, adding an extra layer of reliability to their services.

Cool Blew Inc.'s proactive approach includes environmentally friendly solutions. The company offers solar panel installations and solar attic fans, helping customers take advantage of renewable energy sources. These sustainable options are ideal for Arizona's sunny climate and are part of the company's broader commitment to energy efficiency and environmental responsibility.

Emergency AC repair in Goodyear is now part of the company's wide range of services. This addition aims to meet the urgent needs of the community, enhancing Cool Blew Inc.'s reputation as a reliable resource for residential and commercial maintenance solutions.

For interested parties, Cool Blew Inc. offers easy access to their services through multiple channels. Customers can contact the company directly by phone or online through their website. Additionally, Cool Blew Inc. is active on social media platforms like Facebook, Twitter, and Google. Positive reviews and testimonials from satisfied customers can be found on these platforms, as well as on review sites like Angi.

The expansion of emergency AC repair services in Goodyear highlights Cool Blew Inc.'s dedication to serving its community effectively. As Scott Proctor points out, "Our goal is to be there for our customers at every step, providing not just repairs but peace of mind." The company remains committed to its principles of quality service and customer satisfaction, making it a trusted name in the HVAC, plumbing, and solar service sectors.
