

Infodataplace Review Releases Its Comprehensive List Of Oil And Gas Leads

January 05, 2016

January 05, 2016 - PRESSADVANTAGE -

The e-mail marketing and database marketing experts Info Data Place has released their comprehensive list of oil and gas leads for their clients, individuals and organizations, seeking to reach out and connect with the professionals of the niche.

E-mail and database marketing is the aspect of marketing that gives the individuals and organizations a chance to reach out and market to the professionals of various different niches. Info Data Place is one such leading email and database marketing expert which has become a leading business assistant to hundreds of small, medium and large organizations, across the industry sectors, by providing them expert services for over a decade. Adding on to their impressive database, the company has released the comprehensive list of Oil and Gas leads for their clients.

Infodataplace emerged as a comprehensive data solution provider, helping businesses and large enterprises effectively manage data for marketing and lead generation needs. The company CEO, George Henry, said, "With deep domain knowledge, we have leaped to uncover the efficacious ways for our customers to attempt a daring campaign."

The company has emerged as a leader in the niche by covering 43 Industry segments including Healthcare, Banking and Technology. By providing the accurate and result-oriented data and lists, it has provided impressive results for its customers. As the company representatives said, "With our comprehensive lists, our clients can easily connect with the top and key decision makers, professionals, management officials and much more."

The release of their comprehensive list of oil and gas leads has opened the doors for their clients to get an access to the top professionals of this in-demand Industry section. "This up-to-date and verified list not only includes the major integrated Oil and Gas leads, but over 64,000 names within the independents and national Oil and Gas companies," said company representatives. The lists from Info Data Place have always been kept detailed and accurate, including complete details like first and last names, contact title, email, postal

address, zip code, phone number, fax number, company name, industry types, SIC code and NAICS code, company and revenue size etc. The newest list is designed to be also as detailed as the others.

The company has been well acclaimed and rated high by its customers for the accuracy and result oriented nature of their services. Working for over 10 years, the company has gained a wide base of extremely satisfied customers. Working on to provide their clients with the best possible data and leads, the newly released list into Oil and Gas Industry is a progressive step by the company.
