

Premier Roofing Experts Announces Expert Roofing Services For Residential And Commercial Properties

January 05, 2016

January 05, 2016 - PRESSADVANTAGE -

An expert in all types of repair and replacements of all types of windows and roofs, Premier Roofing Experts has proudly announced its roofing services for both residential and commercial properties in Grand Rapids, MI and the West Michigan area.

The company states that while roofs and windows make a greater part of the house look good, every now and then, people face issues like cracked windows, loose glass, tattered roof tiles, and much more. An expert in the niche, the company provides these services for residential as well as commercial properties.

Randy Lugheart, representing Premier Roofing Experts, said that their services are backed by a team of highly skilled and trained professional experts, which makes sure that the standards of their services are higher than their customer's expectations. "What sets us apart from many other companies is that we offer a comprehensive warranty on our workmanship and a highly-trained team of estimators, project managers and installers to your needs quickly and efficiently," he said.

About their services, he added that Premier Roofing Experts provide complete windows and roof repair and replacement services along with providing a robust line of roofing material that can be a right fit for various architectures and choices of clients. Working for so many years in the area, the Grand Rapids roofing company has earned a great name for itself as an experienced commercial and industrial roofing repair, replacement and maintenance expert. Working closely with their clients, the company is also an expert in residential roofing issues.

"All our commercial installers are insured, licensed and bonded, so our clients can work with us in a worry-free manner," said Randy about their installers. The company prides itself on its high quality services and use of the material. To maintain the high quality of their services, the company makes sure that the people working with it keep the depth of their knowledge in the industry through constant education, training, and certification.

In addition to its services, the company also provides a free estimate to its clients over the phone. "We have worked hard to get a name for ourselves and by constantly improving our services, we make sure that our clients get better than the best experience every time they hire us," said Randy.

With the announcement of their new and improved services, the company has taken one more step towards maintaining their leading position in the market and to serve their clients in best possible manner.
