Green Apple Pediatric Dentistry, a leading pediatric dental clinic in Austin, Texas, proudly announces that its owner and chief pediatric dentist, Dr. Evy Guerrero, has reached a remarkable milestone of performing 6,000 laser frenectomy procedures for children. This achievement highlights the clinic's dedication to specialized pediatric care and its expertise in treating tongue-tie and other oral restrictions.

"Completing 6,000 laser frenectomies is more than just a number ? it represents thousands of children whose lives have been improved," said Dr. Evy Guerrero, owner of Green Apple Pediatric Dentistry. "As both the owner of this practice and a pediatric dentist, I'm deeply committed to providing the highest level of care. Each procedure allows a child to eat, speak, and breathe more comfortably, which is incredibly rewarding."

Laser frenectomy, a minimally invasive procedure to release tongue-tie and lip-tie, has gained recognition for its critical role in pediatric oral health. Under Dr. Guerrero's leadership, Green Apple Pediatric Dentistry has

become a pioneer in this specialized treatment in the Austin area.

The clinic's success in treating tongue-tie and other pediatric dental issues is supported by its state-of-the-art facilities and child-friendly environment. Dr. Guerrero and her team utilize advanced techniques and equipment to ensure each procedure is as comfortable and effective as possible.

"This milestone is a testament to the trust that Austin families place in us," Dr. Guerrero added. "As we celebrate this achievement, we remain dedicated to our mission of improving children's oral health and overall well-being through specialized, compassionate care."
