

Concavo Wheels Voted Rim Manufacturer Of The Year

January 07, 2016

January 07, 2016 - PRESSADVANTAGE -

Concavo Wheels, a business in Miami, FL, is proud to announce that they have been voted as Rim Manufacturer of the Year. All up and coming rim manufacturers that are quickly growing due to great styles and looks were considered. The company has instantly seen an increase in the popularity of their rims for sale, so the award has been very happily received.

Warren from Concavo Wheels says: "There's just something special about being recognized for your hard work and dedication. We have tried really hard to bring something special to a very competitive market, and we're glad to see that people have appreciated it. And we also have to thank our customers for placing their trust in us. We couldn't have gotten to where we are today without them."

Part of the company's most popular products, and the ones that got them noticed for the award in the first place, are the black rims. These black rims have been designed specifically to enhance the beauty of luxury and exotic vehicles, including the Mercedes, Lexus, BMW, Audi, Lamborghini cars and more. The company is dedicated to designing truly unique styles, and this is seen clearly in those particular rims. They are also greatly appreciated for their fantastic customer service and craftsmanship.

The work done by the company has been very positively reviewed, which is another reason why they were

able to win the Rim Manufacturer of the Year award. "Warren is awesome to deal with and provides exceptional service," says Prinassen D. "Keep it up bro."

Another service that the company offers is one for custom rims. This is something that truly sets them apart from other wheel and rim manufacturers, who may have interesting designs, but not 100% unique designs. The custom service enables people to bring their vehicle and discuss what they would like to achieve, working together to create something that is just right for them.

Since winning the award, Concavo Wheels has seen a tremendous increase in business volume. They are very happy to have noticed this and want to thank the community for their continued trust and support.
