New DIY Guide from GreenMountain GreenWalls Shows How to Create an Indoor Living Plant Wall Easily

July 01, 2024

July 01, 2024 -
Vermont-based company GreenMountain GreenWalls has just released a detailed guide that explains how to create a thriving indoor living plant wall at home. The guide, available on the company?s website, includes a step-by-step instructional video. This resource is designed for both experienced gardeners and beginners who want to turn their interior spaces into lush, green areas.

GreenMountain GreenWalls, known for its expertise in living plant walls, preserved moss art, and interior landscaping, wants to make green design more accessible with this new guide. Whether you're picking the right plants or figuring out the best place to hang your wall, the guide has you covered. It even includes tips on how to keep your plant wall healthy over time.

?We are thrilled to share our knowledge and passion for green living with a wider audience through this DIY guide,? said Andrew Lawrence, CEO of GreenMountain GreenWalls. ?Our goal is to empower individuals to bring the beauty and benefits of nature into their homes easily and sustainably.?

The company's new video, available on their YouTube channel, visually demonstrates the process of building an indoor living plant wall. Starting with plant selection, the video walks viewers through each step, showing them How GreenMountain GreenWalls installs our Living Plant Walls for the best growth and visual appeal.

Bringing nature indoors can improve air quality, reduce carbon dioxide levels, and even boost productivity. This guide and video series show how a DIY Indoor Living Plant Wall can offer these benefits to anyone willing to give it a try.

Andrew Lawrence emphasized, "With our detailed guide and video, we want to show that creating and maintaining an Indoor Living Plant Wall installation isn't as complicated as it might seem. We believe everyone should experience the joys and benefits of green interiors."

But that's not all GreenMountain GreenWalls offers. In addition to DIY guides, they provide custom living plant wall installations for both homes and businesses. These services are designed to meet various needs and budgets, giving more people the chance to enjoy beautiful, green environments. They also offer flexible maintenance options, including weekly, biweekly, and monthly visits to keep the installations in top shape.

The firm also specializes in preserved moss art, which requires no maintenance and can last up to 15 years. This makes it a great option for those who want a green solution without the upkeep.

On their website, readers will find many resources about green design, including contact information, galleries of their work, and a blog full of posts on indoor plants and landscaping. For those interested in exploring more innovative green solutions, the detailed descriptions of their services and project showcases are invaluable.

For those who want more in-depth information, the company?s YouTube video page provides a detailed visual guide. This content is easy to follow, taking viewers from the planning stages all the way to having their own indoor living plant wall.

GreenMountain GreenWalls stands out as the only provider of living plant wall services in Northern and Central Vermont. Their commitment to creating green spaces for both residential and commercial clients shows their dedication to environmental sustainability and overall well-being.

In summary, the new DIY guide and video from GreenMountain GreenWalls are great resources for anyone looking to make their home or office more natural and beautiful. By making green design more accessible, the company is helping a broader audience enjoy healthier, more peaceful living environments.

To learn more, visit GreenMountain GreenWalls? website, where one can download the DIY guide for free. To watch the instructional video, follow the link to their YouTube channel. This approach to green design shows GreenMountain GreenWalls' commitment to bringing the beauty of nature into everyday life.
